

# KELLOGG PACT IS HOPE FOR WORLD PEACE, COOLIDGE SAYS

## AGREEMENT SETS UP NEW WAR BARRIER, SERVICE MEN TOLD

Never Would Have Been World War If Treaty Was Effective in 1914

Wausau—Following is the text of President Coolidge's address at the Wisconsin American Legion convention here today:

At the State convention of the American Legion, held at Wausau, Wis., on the 15th day of August, 1923, at 10:30 o'clock a. m., President Coolidge spoke as follows:

Members of the American Legion of Wisconsin:

It is now 10 years since the events were taking place which brought your organization into existence. They have been years necessarily attended by a great deal of hardship, but they have also been years when the world has made a great deal of progress. The war left the chief nations utterly exhausted. How many people directly and indirectly lost their lives by reason of that conflict will never be known. It ran into many millions. The cost in treasure was so great that it can never be counted. It ran into hundreds of billions. The material resources of several of the powers involved were so far exhausted as to require almost complete reconstruction. Our own loss of life, hardly, was comparatively small, but the cost in direct outlay to the National Treasury ran between \$20,000,000,000 and \$30,000,000,000 and is still going on. Of all the countries engaged, the United States has been the least damaged, although we are yet a long distance from its completion.

While the war proved a stupendous catastrophe for all those who were in it, and in 18 months destroyed values which it had taken us generations to create, on the other hand, it has made a great advantage. It gave us an opportunity to know the world which we did not have before. It revealed to us to a large extent both our powers and our responsibilities. It demonstrated so clearly the interdependence of the nations that we are not likely to hear again in responsible quarters that what other nations do is no concern of ours. It is also easier for us to remember that what we do has its effect on other nations. Quite properly, under international law, one people is debared from interfering in the strictly domestic affairs of another people. The first law of liberty, which was one of the principles for which we were fighting, requires that each people should be free to manage their own affairs so long as they observe the rights of others. In the domain of foreign affairs there can be no doubt that throughout civilization a new disposition was created to discard the old rule of force and adopt more exclusively the rule of law, relying for enforcement upon its own moral power.

This has brought about among the nations of the world a new sympathy for each other and a new forbearance toward each other which did not before exist. It has eliminated a great deal of selfishness and produced a desire for mutual helpfulness, even at the cost of considerable sacrifice. In their foreign relations all over the world a very distinct manifestation can be seen in the attitude of the great powers of wholesome restraint and an effort to conclude by patient negotiation what but a short time ago would have been determined with an iron hand.

Another result which the United States very much hoped to see secured was a broader application to the people of the different nations of the principle of self-government. On the whole the movement may be said to be strongly in that direction. Arbitrary rule applied under a system of hereditary monarchy has almost disappeared. While it was not possible for all people at once successfully to make the transition into a republican form of government, it is believed that even among the nations which have appeared to be finding that experience very difficult they are laying the preliminary foundations and are so strongly imbued with the spirit of nationality under freedom that ultimately they will be successful in accomplishing the desired ends.

As the nations of the earth have come to see each other in a new relationship, so there has been revealed to the people of our own country the existence of a relationship which they did not before fully comprehend. During the war we heard much about man power. We found that it was a matter not only of quantity but of quality. The draft demonstrated to us our strength, but also our weakness. We found a very disconcerting lack of education among the young men of the United States. Too many of our new citizens did not understand the English language. These disadvantages were in some ways compensated by the wonderful spirit of loyalty and devotion that was manifested in the case of the whole Nation. We learned not only the importance of education, but also the importance of the character of the individual development.

We found that we needed not only a large number of people, but a large number of trained and educated people capable of putting forth a common effort through being able to arrive at a common understanding. We came to a new sense of our dependence on the individual and a new realization of the obligation of society to him and his worth to society. This has been measurably raised both the physical and spiritual standards of our country. A citizen of the United States holds a new position, higher than that which was ever held in any past time. The opportunities which are enjoyed by our countrymen are far superior to those which ever came to any other people.

taxes contributed their property. Those who possessed very large incomes paid into the National Treasury about 80 per cent of it, which, with their State and local taxes, came very close to a taking over by the Government of their entire property for use during the war. It was, in fact, a practical conscription for an indefinite time of the property of those of very large incomes. While some of our people were in the service, others were producing food, turning out munitions, looking after the affairs of government, and carrying on the necessary activities of commerce and transportation.

We saw that the individual did not belong wholly to himself, but must respond to the requirements of his government. Stated another way, the individuals who make up this nation found that for their self-preservation they must cooperate with each other under a unified leadership and control and contribute their services and their property in order to save themselves from destruction. Self-preservation meant then, as it always does, response to the call of duty.

Adequate defense meant the proper functioning of the entire organic life of the Nation. That lesson carried over into our peacetime activities has been one of the chief factors in the enormous progress which the last 10 years have seen. It is a progress that is as yet only in its beginning, but which is being perfected from day to day and which ultimately holds the chief hope of our material, intellectual and spiritual progress and prosperity. The foundation of it all rests on the extermination of waste and the waster, and on the elimination of slackness and the slackener. It means the coordination of all trained citizens, which will result in a scientific production and distribution of commodities that will raise the standard of living around every fire in the land.

While the Government can be a large contributing factor in providing the opportunities which will lead to this ideal, yet our whole experience during the war tells us that if it is to be attained it will come through the private enterprise of each individual. Its consummation requires that each citizen should do his duty.

Another fact which shines forth with a renewed brilliancy is that many of the rewards of the life do not lie on the side of material gain. We have had a great deal of discussion concerning the injustice of one person going into the service at a very small remuneration, while another remained at home in the enjoyment of very high wages. But I wonder how many of you who are on the uniform and into action, or who are engaged in the service, would now be willing to exchange that experience for the few dollars of extra compensation that some one else was able to earn at home during the latter months of the war. Which one is now in possession of the most valuable treasure—the one who was at the front or the one who was securing high wages? By reason of the draft both were doing the duty assigned to them and both lived up to the full requirements of their citizenship, but I think the conclusion must be the one who was in the place of greater peril is really in possession of the greater reward. What we found in war we shall continue to find in peace.

As with many of our most important services, many of our greatest compensations can not be measured in dollars and cents. You are greater men for what you have given to your country. You hold a higher place of honor in the estimation of your fellow citizens which no money could ever buy. You have a place and a name and a glory which you will hand down as a priceless heritage.

One of the most gratifying of all revelations was that the strength of character of our citizenship was universal. It was all-embracing. It was not limited to any locality, to any class, to any nationality, or to any creed. We found as sturdy and inspiring examples among the foreign born as among the oldest native stock. It came from some obscure mountain home, some isolated dwelling on the broad prairie, or some tenement of great metropolis, as well as from the most favored and most favorable circumstances. We can not contemplate it without increasing our respect for our people and renewing our faith in our institutions. It was another demonstration that we are all Americans.

As we contemplate these past 10 years, we have every justification for increasing our sentiment of patriotism. But while we are doing that we should also remember that other nations during that period have displayed qualities of a high character. They also are entitled to our respect and admiration in their successes and our sympathy and consideration in their trials. While it is our privilege and duty as citizens to place our regard for America first, if we are to justify our position we must make America first.

ment of its differences with other countries through diplomatic negotiations and mutual concessions according to the dictates of reason, rather than by an appeal to force.

It is in accordance with our determination to refrain from aggression and build up a sentiment and practice among nations more favorable to peace, that we ratified a treaty for the limitation of naval armaments made in 1921, earnestly sought for a further extension of this principle in 1927, and have secured the consent of 14 important nations to the negotiation of a treaty condemning recourse to war, renouncing it as an instrument of national policy, and pledging each other to seek no solution of their disagreements except by pacific means. It is hoped other nations will join this movement. Had an agreement of this kind been in existence in 1914, there is every reason to suppose that it would have saved the situation and delivered the world from all the misery which was inflicted by the Great War.

By taking a leading position in securing this agreement, which is fraught with so much hope for the progress of humanity, we have demonstrated that when we have said we maintained our armaments, not for aggression, but purely for defense, we were making a candid statement which we were willing to verify by our actions.

I shall not now go into a discussion of the details of our limitation of armaments, other than to point out that, of course, it detracts nothing from the right and obligation of ourselves or the other high contracting parties to maintain an adequate national defense against any attack, but it does pledge ourselves not to attack others in consideration for their agreement not to attack us, and to seek a settlement of our controversies one with another through peaceful means.

While it would be too much to suppose that war has been entirely banished, yet a new and important barrier has been set up to prevent it. This agreement proposes a revolutionary policy among nations. It holds a greater hope for peaceful relations than was ever before given to the world. If those who are involved in it, having started it, will finish it, its provisions will prove one of the greatest blessings ever bestowed upon humanity. It is a fitting consummation of the first decade of peace.

## POLICE BEGIN CHECKING LICENSES IN APPLETON

Several police officers were detailed by George T. Prim, chief of police, to start checking up on cigarette, soft drink, milk, junk and other required city licenses Monday morning. All the licenses must be renewed by July 1 and unless those who have failed to comply with the regulation secure city permits at once warrants will be sworn out for them, the chief said.

## FORMER ZIMMERMAN AIDE THROWS HIS SUPPORT TO KOHLER

Governor Has Alienated His Friends by Forgetting Promises, Hartwig Says

Milwaukee—Declaring that Gov. Zimmerman will run "a poor third, the inevitable result of his willful disregard of promises made to the voters two years ago," Attorney Harvey C. Hartwig, who was president of the Milwaukee County Zimmerman for Governor club in 1920, Wednesday came out "unqualifiedly in favor of Walter J. Kohler for the Republican nomination for governor."

Mr. Hartwig declared he has "met many of the old friends and associates of the campaign of two years ago and received reports from a good many from all over the state. It is a rare exception to find one who is supporting Zimmerman this year. Lincoln was right when he said: 'You can fool all of the people some of the time, and some of the people all of the time, but you can't fool all of the people all of the time.'"

"To me," Mr. Hartwig's statement said, "Walter J. Kohler epitomizes all the ideal qualities which a holder of high office should have. He is the soul of honor. He has a record of success in the largest sense. He is dominated by the spirit of service to others. He has breadth of vision and in understanding of the feelings of his fellow men."

"I am certain the state's affairs will be safe in his hands. Pecuniary political methods have no place in his makeup. The desire for political gain cannot sway him and financial reward could not interest him."

"I endorse him because of the things he has done and the things he can and will do. I endorse him because he is a man who sells his product and himself on merit and not on misrepresentation."

# KOHLER COMING TO APPLETON TO TALK ON FRIDAY, AUG. 24

## Republican Gubernatorial Candidate Will Spend Part of Day in This County

Walter J. Kohler, candidate for Republican nomination for governor, will speak four times in Outagamie county on Friday, Aug. 24, winding up the day's speaking tour with a huge mass-meeting in Appleton, probably at Pierce park.

Mr. Kohler expects to spend four days speaking in the Ninth congressional district, delivering from six to nine talks each day. Today he is speaking at New London and last week he spoke at Menasha.

Mr. Kohler enters this district at Kewaunee, speaking there at 10 o'clock on the morning of Aug. 24. After two more speeches in Kewaunee and Door—cos he will come into Outagamie—st, starting at Kaukauna where he will talk at 4 o'clock in the afternoon. An hour later he is scheduled to speak at Seymour and they will hurry over to Shiocton for an address at 7, returning to Appleton in time to speak at Pierce park at 8:30. Mr. Kohler expects to spend the night here and early the next morning will start for Brown-co to make the first of nine talks at 9 o'clock in the morning. His concluding address will be at 8:30 in the evening in Green Bay.

Sunday probably will be spent in Waupaca-co after which Mr. Kohler will return to the Ninth district, spending the day in Oconto and Marinette—cos, delivering six speeches, the last at Marinette in the evening.

Arrangements will be made to spend a day in Langlade-co a little later in the campaign.

George W. Mead, Wisconsin Rapids, Republican candidate for United States senator has been definitely scheduled to speak in Appleton on the Monday evening, Aug. 20. Arrangements now are being made for the place for meeting.

# PEDESTRIAN KNOCKED DOWN BY AUTOMOBILE

A. A. Neubert, 72, 224 N. Lawe-st. was bruised about the right leg and the right side of his head when he was knocked down by a car owned by W. O. Thiede and driven by Chester Thiede, 572 N. 1st-st., at the intersection of Drew and Washington-sts. about noon Tuesday. Mr. Neubert was walking from the north to the south side of Washington-st. when the accident occurred. He was taken to St. Elizabeth hospital where he will be confined for some time.

# STREET REPAIR CREW GOES INTO 3RD WARD

Street department employees Wednesday expected to complete grading S. Kernan-ave and then will turn their attention to Fourth, Third, Fairview and Erb-sts. The scarifier now is spiking and rolling W. Spring-st. Work with this slowed up because roads must be sprinkled several times daily to keep down dust.

Indications are the scarifier again will be put to use on Badger-ave near the northwest end of the street. It appears there is either much or quick sand below the surface of the road which causes it to sink in several places. Another attempt will be made to remedy the condition.

# \$100 DAMAGE CAUSED BY LAUNDRY BLAZE

The fire department was called about 6 o'clock Tuesday evening when a fire started in a pile of rubbish and old boards in the boiler room of the Peerless laundry, 307 E. College-ave. The fire started from spontaneous combustion and the damage was estimated at \$100.

The department also was called out about 11:30 Tuesday night when a passerby threw a lighted cigarette on the awning and set it afire.

# 3 AGENCIES COOPERATE TO CONSERVE FISHING

Madison—(P)—A three-cornered partnership is devoting its efforts to increase the number and size of fish in Wisconsin streams.

Members of the firm are the state, the federal government, and sportsmen organizations. Governmental agencies raise and distribute the fish, but upon the local club rests the burden of providing rearing ponds.

Artificial fish raising and planting is not many years old, the conservation commission says. Sportsmen who realized their favorite sport was in danger of being eradicated, interested the state and federal government in the project.

A fishing club in Menominee received from the state 75,000 trout fingerlings annually, which it places in its rearing ponds.

The state commission does not consider distribution of fish a donation to private organizations. As soon as the fish are large enough, they are liberated in public streams.

# BADGER PLUMBERS TO MEET IN MILWAUKEE

Madison—(P)—The eighth annual convention of the Wisconsin Society of Plumbing Inspectors will be held in Milwaukee, Aug. 24 and 25.

Frank R. King, director of the bureau of plumbing in the state board of health, is president of the organization. George Sligham, Janesville, is chairman of the program committee. After President King has read his report, these speakers will be heard: Dr. V. Brumbaugh, deputy commissioner of health, Milwaukee; Dr. C. A. Harper, state director of health, who will discuss plans for future plumbing sanitation; Mayor Daniel Hoan of Milwaukee; L. P. Warlick, state sanitary engineer; William Meltzer, Madison; George Sligham; R. E. Hasselkus, Dousman; Frank Murphy, and George Stoltz, Milwaukee; R. M. Schleck, South Milwaukee; John Schleck, Sheboygan; Michael Murray, Fond du Lac, and William Liegier and John Owens, Racine.

One of the objects of the convention is a review of research work done by leaders in plumbing and related industries.

Eugene Morse, Eau Claire, is secretary-treasurer of the organization.

# 50,000 CHILDREN USE PLAYGROUNDS HERE THIS SUMMER

## Civic League Told That Children Are Intensely Interested in Directed Play

It is estimated that 44,000 people have attended the Appleton supervised playgrounds this summer, according to a report given by Harry Sylvester of the playground committee and A. C. Denney, playground director, at the regular monthly meeting of the Civic Council at the Y. M. C. A. Monday evening.

The report indicated that by Saturday night, when all playground activities will close, 50,000 people will have visited the city playgrounds, which is an increase of 10,000 over last year. The lowest attendance any week was \$25 at the Fourth ward school and the highest during the summer was 1,100 at the Fifth ward school. Six hundred and seventy boys and girls were members of teams during the summer.

Activities at the playgrounds included hikes, indoor baseball, tournaments, nature study contests, project and poster displays, horseshoe tournaments, birdhouse building, ball and jack, story telling, reading hour, bicycle races, and exhibition nights for the parents.

The summer's activities will conclude on Saturday with a picnic at Pierce park for all children of the city. Medals and trophies will be awarded at this time. During the remainder of this week a display of bird houses, posters, nature studies, medals, trophies, ribbons and other evidences of the summer's work will be on display at the Fourth ward school.

The committee estimates that there will be money left in the fund of \$3,000 provided by the city council for playground work.

Two new members, the Appleton Welfare council and the Catholic Daughters of America, were taken into the Civic council upon the recommendation of the membership committee, which includes W. E. Smith, Robert M. Connelly, and George Werner.

It was decided to invite Miss Margaret Lison, secretary of the state association for crippled children, to make a survey of Outagamie-co next January. This section was taken

# STATE DRY OFFICERS ARREST 72 IN JULY

Madison—(P)—Seventy-two arrests were made by agents of the state prohibition department during July, according to reports of R. W. Dixon, commissioner.

Of that number, 22 cases have been disposed of, four being dismissed, and the remaining paying total of \$3,536 in fines. Forty-three are under bonds totalling \$26,000.

Three stills, all in Marinette county, were seized, 116 gallons of liquor, and 3,296 gallons of mash confiscated. Chippewa county ranked first with 8 arrests by state agents.

# GAME WARDENS TO GET STARS FOR LONG SERVICE

Madison—(P)—More adornment for the wardens of the state conservation department.

To their forest green uniforms are to be added silver and gold stars and bars.

The insignia will represent not rank or "rating," but length of service as protector of wild life or fighter of forest fires.

A gold star, worn on the sleeve, will be representative of ten years of service; a silver star, five years. Silver and gold bars, very similar to the insignia of first and second lieutenants, worn on the sleeve will stand for one and two years respectively in the service of the department.

# WATER COMMISSIONERS WILL MEET THURSDAY

The mid-monthly meeting of the water commission will be held Thursday afternoon at the city hall. Bids for main trenching, and fuel oil will be opened and routine business transacted.

When it was discovered, through the report of Frank Wheeler, chairman of the crippled children committee, that the school board could make no further plans for a crippled children's school until the survey had been made. A donation of \$10 from the Rotary club toward the project was announced.

The problem of inaugurating a system of social service in Appleton was discussed, and Mrs. S. C. Shannon was appointed chairman of a committee to investigate the need and gather statistics.

# NO HOUSECLEANING IF KOHLER IS NEXT WISCONSIN GOVERNOR

## Candidate Declares He Won't Fire Men of Opposite Political Belief

La Crosse—(P)—Walter J. Kohler in office as governor, will not stage a "housecleaning" or fire men from appointive offices because they are of the opposite political belief, he declared in an address here Friday night.

Mr. Kohler said the man doing his work efficiently, with the earnest ambition to serve the people of Wisconsin, should have no fear of losing his position because there is a change in administration. The man who has made his duties and perhaps his future of the state in being doing his job, in fact, in local politics, as the penalty, and has no cause for complaint if he is removed.

The candidate declared he was not issuing a warning to any of the "housecleaning" of Madison. Neither am I coming out to retaining in office men who are efficient, regardless of their duties or who use their offices to play politics.

Mr. Kohler said a man receiving an appointment to a state position should give up participation in factional politics.

"I do not mean that he should forget to vote, or that he should abandon his own political ideas and principles, but I do mean that he should put his personal influence to partisan organization."

Appointments should not be on a political basis, and men should be chosen for office because of their qualifications. His consideration should be given to the principle inherent in American democracy that at least all major parties and groups are entitled to participate in the government of the state.

"I will not lead a political machine, and in the conduct of the state's business I intend to use the same methods in engaging and retaining men for the service they give as I would in our own business."

## Mild enough for anybody ... and yet they Satisfy\*

\*To blend tobaccos is one thing... but to blend and cross-blend tobaccos so as to give both mildness and taste is the Chesterfield way!

Chesterfields satisfy. They have a full, rich, rounded-out taste that makes a merely mild cigarette taste flat by comparison. They're mild... and yet... they satisfy.

## PUT 26 ORNAMENTAL LIGHTS ON NEENAH'S BUSINESS STREET

## City Engineer Marks Location of Poles in New Lighting System

Neenah—Twenty-eight ornamental lights are to be placed on Wisconsin-ave between Walnut-st and Main-st, according to plans in the hands of the city engineer. Tuesday afternoon he marked the positions of the poles on the street. There will be 14 on each side of the street. Starting at the south-east corner of Walnut-st and going west there will be poles in front of the Valley Inn, F. L. Haertl plumbing shop, the Beaumonde millinery store; Koepsel meat market, corner at Wisconsin-ave and S. Commercial-st, one at each corner; J. O. Kuehl grocery store; Hanson brothers' clothing store; G. Ulrich market; Charles Sorenson furniture store; south-west corner of Church and W. Wisconsin-ave; the Clausen building; Muenster market; News Agency and the corner of W. Wisconsin-ave and Main-st.

On the north side of the street, lights will be placed at Walnut-st in front of the Burstein plant; Wisconsin-Michigan Power and Light company parking place; Valley Inn garage; the Neenah club; Sign of the Fox; at the corners of Wisconsin-ave and S. Commercial-st; Zuehlke music store; P. A. Haertl jewelry store; Schmidt cigar store; Universal grocery store; Wisconsin Pulp and Paper company office; between the Schmidt harness shop and the Jaspersen warehouse; Thermanson blacksmith shop; Bergstrom Paper company office and midway in front of the Bergstrom mill.

Installation of lights will start in a week, as soon as the posts arrive. The work will go on at the same time the ornamental system is placed in S. Commercial-st between Wisconsin-ave and Franklin-ave, the posts on that street will be located about 50 feet apart on both sides of the street.

## GIRL INJURED WHEN CAR STRIKES LIGHT POLE

Neenah—Miss Lucille Ollman was slightly scratched and suffered a nervous breakdown and was taken to Theda Clark hospital Tuesday evening, when she was riding, crashed into a Wisconsin Michigan Power and Light company pole at the corner of E. Columbia-ave and S. Commercial-st. Mr. Hanson, in attempting to turn around in the street and at the same time avoid striking a car which was parked on the wrong side of the road in front of the post office, lost control of the machine which darted ahead and into the pole. The front of the car was badly damaged.

## SET EARLY DATE FOR SCHOOL REGISTRATION

Neenah—With expectation of an overcrowded high school when the fall term opens on Sept. 4, arrangements have been made to have all pupils, especially the freshmen, who expect to enter Kimberly high school, register at the office which will be open during the week of Aug. 20, for that purpose. It is estimated there will be more than 450 pupils in the high school this year.

## CITY WANTS TO KEEP ITS TREES TRIMMED

Neenah—The city council has given orders that all trees in the city interfering with the street lights must be trimmed and has purchased a number of tree trimmers which can be borrowed free of charge by property owners by applying at the city hall. The city-owned trimmers can be secured by any property owner who has pride in keeping up the appearance of his trees.

## SPARKS FROM CHIMNEY SET FIRE TO ROOF

Neenah—The fire department was summoned at 8 o'clock Wednesday morning to the Tongue residence at corner of Fifth and Hewitt-sts where a fire had started on the roof. The fire had quite a start when the department arrived but soon was under control. Burning embers coming out of the chimney fell upon the roof of dry shingles.

## SPORTSMEN WILL MEET BEFORE HUNTING STARTS

Neenah—The Neenah Sportsman club executive committee will meet Wednesday evening at the city hall to make arrangements for the next club meeting early in September before the annual hunting season opens. An effort will be made to secure one of the conservation officials to give an address concerning new sections to the state game laws.

## TWIN CITY FOLKS GIVE FLOWERS TO THEIR HOSPITAL

Residents of Neenah and Menasha are invited to offer flowers for patients confined in Theda Clark hospital to be picked up by Appleton Post-Crescent Flower Cars beginning Saturday, June 2, and every Saturday until the end of the flower season next fall.

Persons who will have flowers for the hospital are invited to leave their names and addresses at "E" were Drug store, phone 24, if they live in Neenah, and at Frank Grogan's grocery, phone 212, if their residence is in Menasha.

All calls must be made to those places before 8:15 on Saturday morning. It will be impossible for the Flower Cars to call for flowers if the calls are received after that hour.

Chicago—(AP)—A bomb early Wednesday destroyed the front of the candy store and living quarters of Louis A. Stachowski, a policeman, doing \$5,000 damage. Stachowski and his wife were in the store, were thrown from bed by the force of the explosion.

The reason for the bombing was a mystery to Stachowski, who said he believed the bomber had mistaken his place for someone else's.

## U. S. OIL MEN SEEK AGREEMENT TO PUT CURB ON PRODUCTION

Washington—Finding themselves in something of a pickle, leaders of the American oil industry are attempting to weave their way out by affecting an international restriction of production.

They have found that cooperative attempts to restrict domestic production as a cure for the curse of overproduction which has beset the industry so sorely have worked out fairly well. Oil in storage above ground has been cut down, the accelerating consumption and the limited production, so that statistically the industry is in better shape than at any time in the last two years. Too much oil in storage always depresses prices. Lately, wholesale gasoline prices have suffered.

But a great deal of crude oil is still being sold below production cost, leading to agitation for a rise in crude prices, which have sometimes been retarded in the past with less justification.

## OPPOSE PRICE BOOST

Strangely enough, there is strong opposition among some large producers to such a boost at this time. Standard Oil of New Jersey warns in its latest monthly publication that the crude price mustn't be increased under any circumstances. The argument is that an increase would break down the restrictive agreements now operating and soon bring the industry back to the unhappy state from which it has emerged. Furthermore, restrictions would be bound to make possible any price increase made possible by restrictive agreements.

For the moment, restriction has stabilized conditions and some of the biggest oil men don't want to jeopardize that situation.

Standard of New Jersey holds that increased returns should be obtained through operating economies, efficient marketing and saner production methods.

The situation might be solved along those lines were it not for the fact that cooperative restriction practiced notably in the mid-continent field threatens to be set at naught by an increasing flood of oil pouring into the country from South America. Naturally, they're doing the most squawking and the remedy they propose is a tariff on crude oil, which probably will be demanded at the next session of Congress.

But that idea runs square up against the fact that importation is not necessary to affect the oil market as long as we continue to export in such large quantities. The South American oil will have the same effect if taken to France or England. And if we put a tariff on crude oil, our exporters will then merely put their refineries outside this country to save paying duty. Already Standard Oil seems to be tending to this policy.

We export two or three times as much oil as we import and it will do no good in this country if the export demand is satisfied from foreign sources.

Meanwhile imports are jumping even.

## PREDICT HUGE CROWD WILL HEAR SMITH'S ACCEPTANCE SPEECH

Albany, N. Y.—(AP)—Within a few weeks 100,000 persons will gather in Capitol park, here to witness the transformation of a state's chief executive into a party's choice for president.

When Gov. Alfred E. Smith steps from the capitol to the capitol August 22 to deliver his speech of acceptance in response to Sen. Key Pittman's official notification of his nomination as democratic presidential candidate, a subtle change will have taken place, perhaps not more in his own personality than in the attitude of the public towards him.

The man who takes his place beneath the batteries of flood lights, facing the microphones which will pick up the sound of his voice and carry it to millions of unseen listeners, will be no longer the "Al" Smith of Oliver street, Tammany Hall and the executive office in the capitol. He will be Alfred Emmanuel Smith, four times governor of the Empire state and first-ballot choice of the democratic party as its presidential candidate. He no longer belongs peculiarly to New York—national interests and activities have claimed him.

Selection of the steps of the capitol as the scene for the notification ceremony was in keeping with the career of the nominee. Replete with national as well as state tradition, the massive stone building has been significantly honored by the events which have occurred within its walls or beneath its shadow, but never before has it become the scene of an event of such political significance as the notification of a presidential candidate.

For the better part of 25 years it has been the place of business of the democratic nominee.

It was in 1904 that Alfred E. Smith, who previous to that time had been merely a clerk in the office of the commissioner of jurors in New York city, first came to the capitol as an assemblyman. It has been reported that after the first term he was induced to quit—the game of politics was new to him and not altogether pleasant. But he came back again and again, first as an assemblyman, then as floor leader of the Democratic forces; later as speaker of the assembly.

One week because of low production in Venezuela. These costs are "lower" due to several factors, among them the absence of offset wells and other expensive phases of the cut throat, uncontrolled competition in this country. American producers who attempt to sell high production cost oil in competition with low production cost oil are out of luck.

Tariffs have solved similar problems for many other industries, but oil is in the position of agriculture. It was in the same position at the time Mexico reached peak production, but its domestic producers failed to obtain tariff protection at the time.

NEED RESTRICTION? One solution to the problem is in an international agreement on restriction—a correlation of regulation A. C. Debenham, representative of the British Royal Dutch Shell interests, came to America several months ago, hoping to effect a restriction agreement with American producers.

Now, however, some sort of a truce has been worked out as regards Russian oil and Standard Royal Dutch, Anglo-Persian and the Turkish Petroleum Company are interested in a joint attempt to achieve a world production agreement.

One effect of such an agreement might be to lessen the tension which oil frequently produces in international relations.

## TEXAS DEMOCRACY TRAINS ITS GUNS ON PARTY BOLTERS

Republican Hopeful, However,  
That Hoover Will Garner  
Votes

BY L. B. DILBECK  
Austin, Texas.—(AP)—Committed to the straight democratic ticket from president down to constable, party regulars in Texas are out to scotch the rumblings of an anti-Smith bolt at the November election.

A de-hard struggle is becoming evident between straight-ticket tradition and the collective "conscience" of the opposing Gov. Alfred E. Smith for president and planning to scratch his electors' names at the ballot box. Throwing party fealty overboard, some of the bolt leaders have said their conscience will not let them vote for Smith because of his prohibition stand.

Meanwhile reprobates, who usually poll only a negligible vote in Texas, cherish high hopes that the situation will foster a democratic rush to Hoover and make their dreams of a two-party state come true.

Although only 21,000 votes were cast for the last republican candidate for governor, George Butt, republican opponent of former governor Miriam Ferguson got nearly 300,000 votes in 1924 as the result of a democratic bolt.

The result of the race of Thomas Love, former democratic national committeeman, for lieutenant governor in the late August run-off primary may supply a definite criterion of the anti-Smith strength in Texas. Love, state senator from Dallas, has bid for support almost wholly on his public vote to scratch the presidential ticket. He is opposing Barry Miller, a Smith supporter.

An intensive concern for the safety of prohibition is offered by most of the announced bolters as the reason for their opposition to the New Yorker. The religious issue has been soft peddled in political circles.

As a natural sequel to the riotous splits over Smith in some of the county conventions the fight will be renewed at the September state convention, which has been called to ratify state primary nominees and evolve a platform. Rival delegations will present themselves from counties containing three of the state's largest cities—Fort Worth, Dallas and Houston, where Smith men and party bolters had separate conventions after calling each other "Hoover democrats" and "Brass Collar democrats."

Curiously enough, the smaller counties, popularly supposed to have anti-Smith leanings, held predominantly harmonious conventions and in many states condemned the bolters.

"Vote ticket straight" is almost a religious rite with a large section of Texas democrats and that recognized fact is relied upon by the regulars to stem the bolt, which is emanating mainly from the cities where the W. C. T. U. is adding its voice to the plea for Hoover.

Love's name will be barred from the tickets in several counties in the second primary because of his anti-Smith stand.

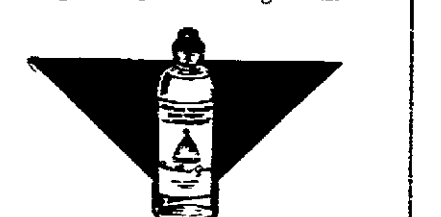

## STATE PLANNING GROUP WILL MEET HERE OCT. 18

The annual convention of the Wisconsin City and Regional Planning association will be held in Appleton, Oct. 18 and 19, according to a letter Mayor A. C. Rule received from officers of the association at Milwaukee, Monday morning. The letter informed Mayor Rule that Charles B. Bennett, city planning engineer of Milwaukee was chairman of the program committee and was desirous of knowing when a local arrangements committee would be appointed and what its plans would be. Mayor Rule probably will refer the letter to the city council Wednesday evening and appoint a committee to arrange for the convention.

## Who's Who In Dogdom

No. 14

The Rough Collie, without doubt one of the most handsome of all British breeds, started out humbly enough as a sheep dog for Scotch farmers.

Then, Queen Victoria, on one of her first visits to Balmoral, became infatuated with a Collie and the breed was brought into social prominence and has never entirely lost the popularity the queen's favor won for it.

**NAME FROM COLOR**  
The Collie's ancestry goes back to the sixteenth century. Its name (originally spelled Colley) is derived from the Anglo-Saxon word "Col" meaning "black." This was the dog's original color.

The unscrupulous or ill-informed have spread the story that Collies are treacherous, especially with children.

Elephant's hide is used in Sheffield for burnishing cutlery. It is dark brown and not unlike wood in texture.

And claim, on the other hand that no blooded member of the breed has ever bitten a child.

Collies are generally hardy. They thrive in the open and should be reared, as much as possible, in open air, with plenty of exercise and sound wholesome food.

**HARD COATS**  
Standard dogs of good blood usually reach a weight of between fifty and sixty pounds. Their coats should be dense and of a hard texture. Soft fluffy-coated Collies are becoming numerous, but are not in the best tradition.

Although a British dog highly prized at home some of the world's best Collies are reared up at the feet of American masters.

## COUNCIL COMMITTEE TO ACCEPT MONKEY FOR ZOO

Appleton's new zoo at Anicia park is going to have a new inmate—a monkey. Mike Stenbauer, as chairman of the public grounds and building committee of the city council Monday stated his committee had decided to accept the offer of John Ballet to sell the city the monkey John brought up from Cuba last winter. The offer was made the city several weeks ago. Officers of the city of Oshkosh asked Mr. Ballet to sell them the monkey but a desire to put the animal some place closer to home prompted Mr. Ballet to come to Appleton with the offer.

## SEEK 2 MEN CHARGED WITH NON SUPPORT

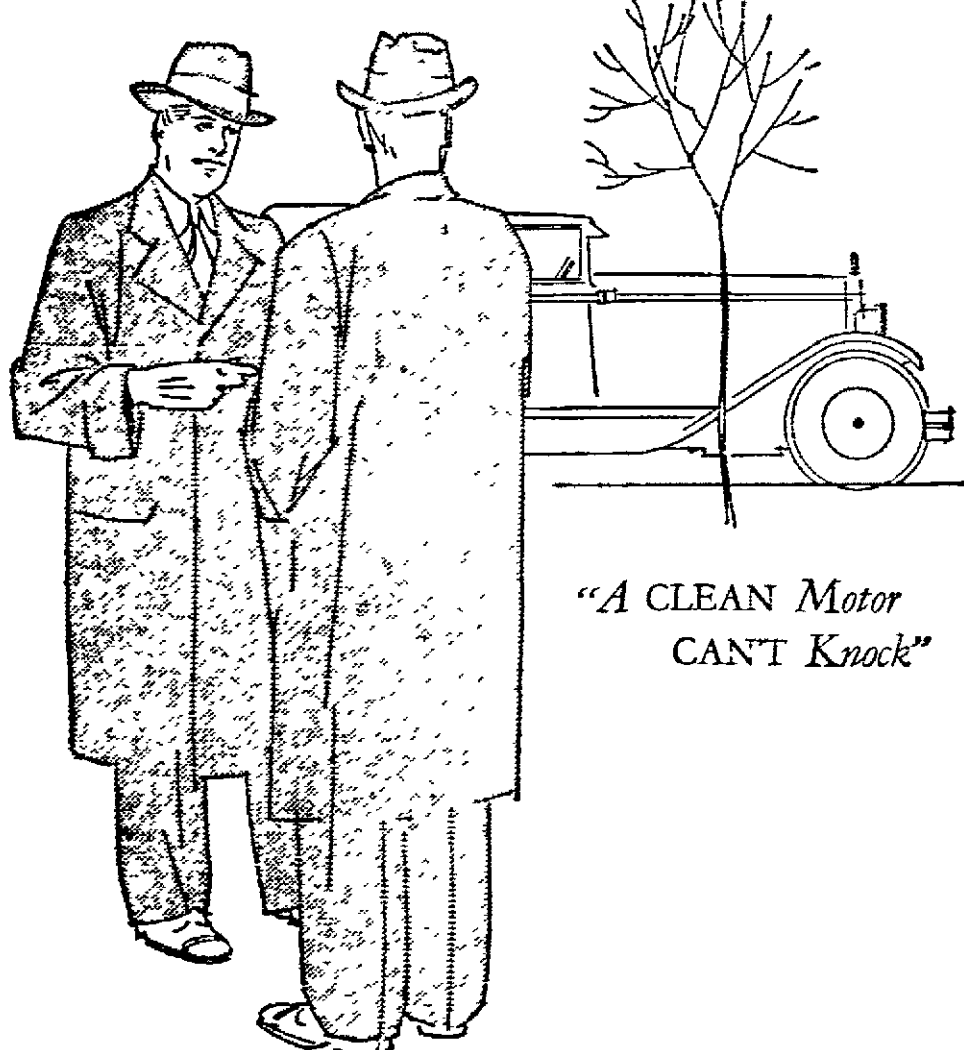

Cards were being mailed by Sheriff Otto Zuehlke this week to police officers throughout the state asking their cooperation in his search for two men wanted here on warrants charging non-support. Eugene Rickett, who is about five feet, eleven inches tall, weighs 150 pounds and has light hair and blue eyes. When he disappeared he wore a dark blue suit, blue tie, buck oxfords and tan felt hat. Charles Geaelmeyer, 40, who has gray hair, blue eyes, is five feet, six inches tall and weighs 150 pounds. He is a cigar maker by trade.

## Your Lucky Day

By Edna Wallace Hopper  
Wouldn't you call it a lucky day when you found a hair dressing that ranged wave troubles for the summer season? Here it is. Wave and Sheen is the only product I have found which will keep the hair in perfect trim.

Apply it before waving or setting your wave (if use a comb. It can be applied with a brush). Then put in your curlers, or set your wave if you have a permanent. By the time you are ready to dress, your hair will have not only a soft, flattering wave but a glorious sheen. On the hottest days you can be happy in the knowledge that your hair is in keeping with your dainty summer toilette. Get a bottle of Wave and Sheen today at any toilet counter. Your 75 cents back if you are not pleased.

"REGULAR"

Mr. Lowden, political leader of the corn belt revolt and candidate of Mid-western farm extremists for president, is gradually thawing out. He has been in close retirement since that little meeting down at Kansas City which nominated Herbert Hoover for president. He has had the appearance a little bit of Agamemnon sulking in his tent, but one cannot sulk forever. It is too hard on one's health and contentment in hot weather.

Mr. Hoover's acceptance speech offered the opportunity for Mr. Lowden to emerge into the open again and he is taking advantage of it with an avidity not very well concealed. He praises Mr. Hoover's declarations on the farm problem. He says his "frank recognition of agriculture as presenting the most urgent economic problem in the country today is half the battle won." He would like to endorse Mr. Hoover's farm expressions in toto, but pride will not quite let him do it yet. He makes a few reservations here and there, but it is evident he is going to climb into the Hoover band wagon and preserve the regularity of his Republicanism.

After Kansas City it looked as though Mr. Lowden would desert and join the ranks of the enemy. That he has chosen not to do so may be set down as a pretty certain augury of what is going to happen with Republican leadership and agriculture generally throughout the Midwest next November. The prohibition issue will not excite half the interest in the Central west as will farm relief, and it would seem that even with Mr. Rascoe's assistance the Democratic nominee would not be able to impress the farmers in anything like the degree Mr. Hoover will impress them in point of capacity and equipment for this particular service.

## AMERICAN RESTAURANTS

"I don't get to this country very often," says a foreign traveler, "but when I do come, and it is summer, I am struck with the only thing I can see to improve, and that is the restaurants." He is complaining not of the food or service, but the lack of fresh air and sunlight. He wants to brighten up our restaurants by letting the outdoors in, or taking them outdoors in the European fashion. "American tourists," he observes, "go abroad and rave over the sidewalk cafes, but they don't get a chance to patronize one at home."

Not only do our restaurateurs keep within doors, but they carefully shut out the natural light and replace it, even at midday, with artificial light. Which is patently absurd, especially in a country to which electric light is no treat, and which loves the outdoors. The old reason for not having sidewalk cafes, says this critic, was the dust and dirt. But that was in the days of horses and poor paving. Now our streets are usually as clean and fit for the purpose as those of France or Italy. Emergency shutters are easily installed for use in bad weather.

"But Americans don't want to eat breakfast on a sidewalk," a restaurant man objects. Well, they love it in Paris. And in almost any foreign city they certainly take to the idea at night, especially in cafes fronting on public squares, with little tables spreading out over the curb and orchestras playing all around, and the world sitting at one's elbow or passing by. At the very least, we might let daylight into dingy, stuffy dining rooms.

## BALKANS GET TOGETHER

A new spirit in the Balkans is shown by efforts to establish a federation of Balkan universities to promote unity and cooperation. It would include the Universities of Bucharest, Prague, Belgrade, Zagreb, Sofia, Athens and Constantinople, eventually adding others, with headquarters in Belgrade.

It is expected to provide a "clearing house for scientific and medical discoveries, especially those which will ameliorate public health, prosperity, social and

economic conditions," with an interchange of professors and students.

The plan doesn't go so far as the Pan-American union. It is cultural rather than popular. Teaching educated men to get along with each other and getting an ignorant population to forsake its racial prejudices and hatreds are two very different things. Yet this is a step in the right direction. When the "best people" in the Balkans learn to tolerate and cooperate, the others will follow.

## A TRIBUTE TO MR. HUGHES

The election of Charles E. Hughes as a member of the Permanent Court of International Justice, to succeed John Bassett Moore who resigned, at the September session of the League of Nations assembly is practically assured. Jurists of twenty-six nations, including Great Britain, France, Germany and Japan, have nominated him as their first choice for the vacancy, and nominations closed August 1st.

The men who have thus honored Mr. Hughes comprise the greatest jurists of the world at large. It makes the tribute one of unusual distinction. They know him as one of America's great secretaries of state, as a member of the supreme court of the United States, and for his able leadership in directing the work of the Washington arms conference. They know him as a fellow jurist of the highest standing. If Mr. Hughes accepts election to the World court his membership will augment its prestige, while America will have the further pride of contributing to its usefulness as an instrumentality for peace, even though we refuse to give it our support.

## THE CHINESE TARIFF TREATY

News that the treaty between the United States and China restoring full autonomy to China in tariff matters had been signed followed closely upon the news that such a treaty was being negotiated. By the terms of the pact, it will become effective on Jan. 1, 1929, provided it has been ratified by that date, and will supplant all existing tariff commitments of China to the United States.

The treaty stipulates that there shall be no discrimination by China against Americans as compared to the nationals of any other country. That may delay the actual effectiveness of the treaty provisions, although it should not be a long delay, because half a dozen other governments are already negotiating similar treaties, Great Britain among them.

Regardless of how soon the treaty becomes effective, it is important for the good will it expresses. It is a form of de facto recognition of the Nationalist government. It indicates the trend of international feeling toward China, a feeling of respect as well as friendship, in which we take the leadership.

The Chinese understand the full import of this and are prompt in expressing their gracious appreciation. The Chinese general chamber of commerce has sent to the Nationalist minister at Washington a note addressed to President Coolidge, Secretary Kellogg and the American people, which thanks us for our cooperation and adds: "This evidence of American fair play, progressiveness and friendship will usher in a new era in Chinese-American relations. The American attitude has greatly encouraged and inspired us."

## FASCIST EDUCATION

Fascist Italy has issued a new order to Italian Fascists who live in foreign countries such as the United States. It calls on these Italians to educate their children in Fascist schools rather than in the schools of the country of their adoption, and demands that all of them wear the Fascist badge at all times, because "the badge is the symbol of Italianity for the wearer."

This really doesn't mean very much of anything. Yet Americans who favor restrictive immigration laws ought to send a vote of thanks to the Fascist official who issued this order.

Ineffective as it doubtless will prove, it is certain to arouse a good deal of resentment in this country. It will simply serve to strengthen the hands of the people who want to see the entrance of southern Europeans into the United States cut down to an irreducible minimum.

The Department of Agriculture comes to bat with the shocking declaration that sauerkraut is not a German invention, but is probably of Chinese origin. Maybe the department will be telling us yet that chop suey is really an Irish dish.

Among the contributions to the Republican campaign fund the other day were two fifty-cent pieces. People are beginning to take their politics too seriously.

A headline in a Philadelphia newspaper says: "Lone Bandit Robs Woman of \$1,000 in Downtown Hotel." What! One man!

Panama asks the United States to supervise an election. Sounds like propaganda by the ammunition people.

## Health Talks

Dr. Brady will answer all stored letters pertaining to health. Writers' names are never printed. Only inquiries of general interest are answered in this column, but all letters will be answered by mail if written in ink and a stamped self-addressed envelope is enclosed. Requests for diagnosis or treatment of individual cases cannot be considered. Address Dr. William Brady, in care of this paper.

## FALLEN ARCHES

Flat feet, broken arches, fallen arches, should be clearly distinguished from weakfoot, pronated feet, weak ankles, disused in recent articles here. In actual flatfoot the arch has fallen, all right, everybody can see. In mere weakfoot or potential flatfoot, the arch has not fallen, though it may seem so and especially if a glib shoe salesman assures the credulous parent that the arch is giving away and needs some support. I repeat that there is no breaking of the arch of the foot in mere weakfoot or pronated foot; the bones that form the arch remain in their normal relations to each other, though the foot rolls in at the ankles and gives too much under the weight of the body. If you wish to convert a simple weakfoot or pronated foot into a real flatfoot, the surest way to bring about the misfortune is to persuade the young person with the weakfoot to adopt some kind of support for the arches.

In actual flatfoot the arch sags, the ligaments binding the small bones of the foot together give and stretch, and the bones that form the arch acquire new bearings and new points of contact or pressure. This causes soreness, pain, and muscle spasm, and eventually adhesions and rigidity of the foot in the new position. All this takes many months or perhaps years. In the earlier stages when there is much soreness and pain there isn't much deformity; in the late stage when there is a permanent deformity there is little soreness or pain.

Some feet are very painful and useless yet the arches are not flattened. Some feet are quite flat yet useful and painless. Where there is pain and disability without much falling of the arches, the question becomes one of diagnosis, and one that requires the best medical skill. The public has been freely apprised of the error of treating flatfoot for "rheumatism." That is an error likely enough to happen when the patient does not see fit to seek medical care at all. Probably a more common mistake is the treatment of various diseases as "falling arches," when the sufferers accept the gratuitous "expert" advice of various merchants.

Of course there is no home treatment for actual flatfoot. It is strictly a surgical or medical problem. If the individual condition can be improved by manipulation or by operation, arch supports may help in the restoration of normal relations of the bones of the foot. The fitting of such supports is as technical a question as is the application of plaster cast to the spine. It demands thorough medical and surgical knowledge and skill in each individual case.

Amateur mothers every day make the startling discovery that the baby's feet are flat. They do not look so, I declare. But it's all right—just a packing of fat conceals the arch. The baby's feet will be normal when he gets to using them.

Some individuals, some races, have flat appearing feet, but no foot trouble.

How to tell about your feet: If they hurt you or if they disable you in any degree or if they don't look right to you, consult a physician.

## QUESTIONS AND ANSWERS

They Sound Bad

Please describe "cramps" in the haunches and down the backs of the legs. Is that a possible result of flat feet? Has fistula any leading effect toward this condition? (Mr. S. L.)

Answer—Come, come, my friend, you're going at the thing in the wrong way. You should describe your "cramps" or sensations to the doctor and leave it to him to decide what may be the matter with you. If he is a good doctor he will scarcely permit you to cross-examine him about possible explanations for your complaints.

Ants in Kitchen  
We are plagued with little red ants in the kitchen. They seem to come in from the porch and everything we have tried has failed to bother them any. (H. G.)

Answer—If you can sprinkle a line of tartar emetic across the trail it will certainly make the ants sick, but do not use this about the house if there are children. Careful cleaning up of crumbs or bits of food is necessary, as these attract the ants. If you can find their nests, squirt a little gasoline or kerosene into the holes. Or offer them a piece of ordinary sponge saturated with a syrup made by heating a couple of ounces of sugar in a cup and mixing this with one-eighth ounce of arsenate of soda, boiling again, straining, and saturating pieces of sponge with it. Plant the poisoned sponge wherever the ants will find it, but not where children may find it.

Stimulants  
My son is 14 years old and has never tasted tea or coffee. He drinks lots of milk. Should he take tea and coffee now? (Mrs. M. G.)

Answer—Time enough when he reaches the age of 16 to let him have tea or coffee. Much better for children to drink milk and not tea nor coffee nor other stimulants.

## LOOKING BACKWARD

TWENTY-FIVE YEARS AGO

Wednesday, Aug. 19, 1903

Governor La Follette named Monday, Sept. 7 as labor day and recommended that all industrial establishments close on that day.

Outagamie county was to break all records for its output of cheese that season. This was due to the frequent rains, which made the pasture better and the flow of milk much greater.

The drawings for the second round in the tennis tournament on the courts of the Riverview Country club were made that morning and were the Rev. Selman P. Delaney against J. W. J. Tesch, E. J. Rosier against Harry P. Danis, and Stansbury against W. L. Conkey. J. P. Day was to begin the following day.

Joseph Plank was a Green Bay visitor the previous day.

Carl Schuetter was spending his vacation with relatives in Little Chive.

F. J. Rooney of Seymour was in the city on business that day.

The sack holers much pleased and trimmed with lace and silk tassels was effective in women's fashions. A vest of white silk to wear with it had a transparent yoke and was trimmed with lace.

TEN YEARS AGO

Wednesday, Aug. 14, 1918

Three sub attacks on the east coast were reported that day. A tax on business was suggested as a war revenue measure.

Butter and cheese prices went up another cent a pound the previous day at a meeting of price fixing committee of the country food administration. Potatoes were scarce, it was reported and dealers were paying \$1.10 a bushel.

Mrs. C. H. Emmer left the previous day for Marinette for a several days visit with friends in that city.

Mr. and Mrs. L. D. Reed, Mr. and Mrs. A. L. Kiss and Corporal Gustave Kiss spent the previous night at Neenah.

Miss Elizabeth Conway who had been visiting friends at Milwaukee returned to her home in this city.

A marriage license was issued that day to Theodore Jacobs and Mary V. Ryan of this city.

Mr. and Mrs. Fred Hansen, Sr. left that morning for Conover, where they were to visit friends.

Mrs. Albert Thompson of Darby was an Appleton visitor the previous day.

Mrs. H. E. Thorne of Los Angeles was visiting relatives in Appleton.

## HAY FEVER EVOLUTION

## LIBRARY ADVENTURES

By Arnold Mulder

## "THE BLUE TRAIL OF A BLACK ULYSSES"

That is the sub-title of a book recently published of which the title is "Rainbow Round My Shoulder." Why the author or the publisher or whoever was responsible for choosing the title did not make the subtitle the name of the book is a mystery to me. It seems to me that it not only fits the book better but is a great deal more effective. "Rainbow Round My Shoulder" is bizarre but ineffective. The sub-title gives a very good description of the book.

That is exactly what the book amounts to. It is the record of the travels of a negro who never stays on a job more than about two weeks at a time. He goes from city to city, from state to state. When he has money he travels "on the cushions," when he is broke he travels on the roads or in a "sidedoor-Pullman." When hunger forces him he takes a job on a construction gang for a week or two. With his wages, he tries his hand at a crap game and perhaps loses it all in an hour or wins enough to keep him going for a month or two.

The book, which is unusual in many ways, is by Edward W. Odum. I take it that that is the name of the chronicler. Each chapter is introduced by a few paragraphs in italics which give a kind of sociological comment on the social significance of the wanderings of this black Ulysses. Sometimes there is some negro chant besides, and then the black Ulysses resumes the narrative in his own person.

He starts with the story in early boyhood, telling how he grew up helter skelter, his father a dandy and a drunkard, his mother a hard worker but unable to give the numerous children the proper rearing. There is an episode the little negroes are taken in by the grandparents, after the father has been shot by the mother in self-defense. The story of a negro boyhood in that particular stratum of negro life is both interesting and, I think, valuable as a social study.

But the real story begins when the black Ulysses runs away from home to make his own way in the world. The narrator tells the whole story without any reservations. He is almost as frank as Benvenuto Cellini and almost as boastful. He describes many of the intimate details of his life and the implication of the story is that the adventures of this particular negro are typical of the great migrations of negroes in the past among that race.

Every now and then the black Ulysses takes a notion to get married—which promptly puts into execution because he is a great ladies man and always finds it easy to persuade a woman to marry him. After a little the wanderlust takes hold on him again and he moves on to another place, resolved perhaps never to marry again. But after a few months he forgets his resolve and makes yet one more experiment. He never

wastes money on securing a divorce—he merely moves to another town.

The blue trail of the black Ulysses is mainly the story of a wandering negro's work life, love life and gambling life. Those are the major passions that animate him and that either stimulate or depress him. In one chapter he is exultant and living on a high note. In the next he is in the dumps and bewails his fate. Either in exultation or in sorrow, he is likely at any moment, in the middle of any paragraph, to break into a negro chant, which chants, I suppose, are authentic. At least they look authentic and they give a strong atmosphere of reality to the narrative.

An unusual book, part novel, part biography, part sociological treatise.

## The Question Box

Information on almost any subject can be secured by sending questions to the Post-Crescent Information Bureau, Frederick J. Haskin, director, Washington D. C. The bureau does not answer questions pertaining to medicine nor does it express opinions on the merits of stocks and bonds. Send a 2-cent stamp or a stamped and self-addressed envelope with your question.

Q. How many commemorative half dollars have been coined for Hawaii, and how many have been authorized? W. G.

A. The Report of the Bureau of the Mint shows that 16,000 of the above mentioned coins were struck during June. This number is the full amount authorized.

Q. What is the chief export of the United States? R. D.

A. Unmanufactured cotton is our chief export. In 1925, it comprised 17 per cent of the total, with a value of \$814,000,000.

Q. How old are the oldest manuscripts written on papyrus? H. E. V.

A. The oldest papyrus known date from 2000 B. C.

Q. Who designed the overseas hat worn by the American Expeditionary Force? M. H. E.

A. This peculiar headgear was devised by a Board of Officers of the A. E. F. in France. The campaign hat could not be used in connection with the gas mask.

Q. How did the word jitney come to be used in referring to a small automobile? P. E. R.

A. Jitney is a term which was at first synonymous with the nickel or five cent piece, but later was used when speaking of the automobile that carried people for a nickel fare.

Q. Can you tell me a simple way to differentiate between lead foil and tin foil? D. C.

A. The Bureau of Mines says that the surest and most common test of

tin foil is that when it is rubbed on a piece of paper it will not make a mark. Lead foil does make a dark, streaky mark if rubbed across paper.

Q. When was the first immigration quota law put into effect? R. C.

A. The first quota law was put into effect July 1, 1921. This law was superseded by the Immigration Act of May 26, 1924, which went into effect July 1, 1924.

Q. Who was the Universal Doctor? N. W.

A. This name was applied to Thomas Aquinas, and also to Alain de Lille.

Q. What is the derivation of the word limerick? M. R.

A. This term is said to have been taken from a song with the same verse construction, current in Ireland, the refrain of which contains the place name, Limerick.

Q. What is the Greek word for God? M. B.

A. In Greek this word is Theos, English words of like meaning tracing their derivation to it.

Q. Did Tunney ever fight in a preliminary when Dempsey was staging a championship fight? L. A.

A. On July 2, 1921, at the Dempsey-Carpenter fight, the fifth preliminary was between Gene Tunney, former A. E. F. light-heavy weight champion, and Soldier Jones of Toronto. Tunney knocked out Jones in the 7th round.

Q. When was the first state park? A. G. E.

A. The first state park, of large size, set apart primarily for recreation, was one which is now a famous national park, Yosemite. Congress ceded the valley and a mile wide border around it to California, as a state park in 1865.

Q. Does the Governor of any State have a six year term? F. G.

A. No State elects a Governor for more than four years. About half the State Governors have four-year terms and half have two-year terms. New Jersey's Governor is elected for three years.

Q. Of what timbers was the Constitution built? E. K.

A. According to Joshua Humphreys' statement in regard to the Constitution, the frame of the vessel was made from live oak and red cedar; the keel of white oak; the decks of Carolina pitch pine. Joshua Humphreys was the designer of the ship. The Constitution is sometimes called Old Ironsides, because of the hardness of her planking and timbers.

Q. What percentage of Indian blood entitles one to government benefits? E. McL.

A. To be entitled to Indian money or land, it is not necessary for one to have certain percentage of Indian blood. It all depends on whether or not one's name is rightfully placed on the Indian rolls.

Q. What was the national average for physical rejections of drafted men during the World War? L. L.

A. The national average was 8.1 per cent. Maryland had the fewest, only .94 per cent.

Q. What will take away the flat taste of water that has been boiled? W. C. S.

A. It should be aerated, that is, poured from one clean receptacle to another a few times.

## See-Sawing On Broadway

By Gilbert Swan

New York—An air of implied suspicion hangs heavily over those famous gem shops in Fifth Avenue, where millions in baubles are stored. Even a none-too-timid soul, like myself, gets the uncomfortable feeling that it would be infinitely easier to rob a safe than, for instance, to arrange for an inspection of the cheapest of wares in such a place. The glance one gets from the proprietor of a speakeasy is as nothing to the sense of discomfort experienced at the very doorway to these castles of bauble.

At one celebrated gem shop which I have in mind, the door is opened by a page who immediately rings a small bell. Whether or not this is the procedure that marks the arrival of Mrs. Van Puster-Van Fyssh, I have no idea. My own inclination was to

frisk myself to make sure that some one hadn't planted a gun in a hip pocket.

The frock-coated gentleman who approached me possessed that affect of professional manner which is as aloof and cordial as an Arctic winter. Glancing quickly about one notices the innumerable squads of meticulously dressed attendants. Perhaps they're clerks. The word clerk, however, does not rise easily to the tongue in mentioning them. Their air suggests a cagey uncertainty. They haven't discovered whether it is their business to be interested, or coldly impersonal. They take no chances. They take no chances. They presume that, dressed in your ordinary business clothes, you are an intruder until such time as you can prove that you're not.

When, as my case, the gentleman who answered the bell has quietly asked your business and you have told him that curiosity happens to be your profession, you are hustled away so that the eyes of the sales-folk may not have to look upon such unworthy clay.

By this time you have been "put in your place." You look back to see if any avenue of escape is open. It's too late. The darkened door is closed. The page is guarding it. If you turned to run, you have the feeling that private detectives would pop up from every corner and the severe looking attendants would turn out to be two-gun Johnnies.

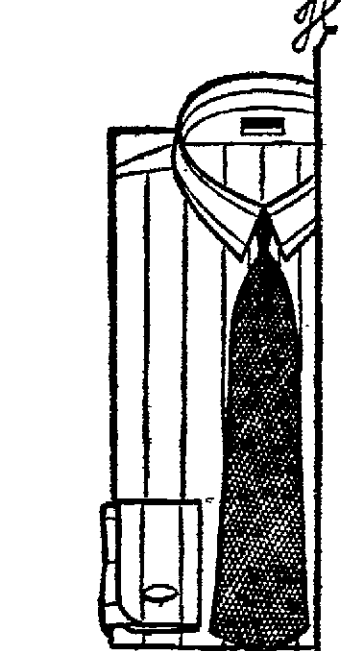

You are hurried into a little back room that resembles variously an unplumbed washroom and a storeroom. The room is tiled and marbled, but it has a slipshod about it that makes you feel more at home.

You're none backward in one of the nation's most reputable diamond palaces. And it's not so very much unlike a thousand other back rooms you've been in. So there is disillusion just around the corner again!

You explain your mission. You mention that you were a newspaper man once, yourself, but since entering the place you realize you've made a mistake. You now know full well that you're merely an insect of a grain of dust in disguise. You are not interested in buying a darn thing. In fact, what with bus fare back to the office you might have difficulty swinging a decent lunch. You're a most willing to match the gentleman in the frock coat for two-bits to settle whether you eat a hearty lunch or none at all. You explain further that you were just passing by and being in the business of curiosity just stepped in. Now that you've stepped in you'd just as soon step out, but you'd just as soon they didn't search you at the door.

Indeed! How very interesting! . . . Had I seen the publicity man? He'd tell me all about it! All about the arrival of the umpty-thousand dollar pearl necklace for the Round-Robin club party. . . . all sorts of things in fact.

No, I insisted severely, I had seen what I wanted to see. I was content. Even more I was amused. A bell tinkled. The page hopped to attention. I went out into the hot sunlight of Fifth Avenue. I was a free man again.

# When A Girl Loves

BY LUTHER NEWLY GROVES

THIS HAS HAPPENED VIRGINIA BREWSTER is in love with an artist, NATHANIEL DEAN, but she is hesitating to marry him because he fails to earn \$100,000 that he alleges her father cheated him out of. BREWSTER had lost his fortune before his death and VIRGINIA is left destitute.

She pawns some of her jewelry and OLIVER CUTTER promises to invest the money for her. She seeks work without success. She discovers that DEAN is having her watched and that he bribed the agency not to give her work. OLIVER gains her confidence and shows her attentions which NIEL resents, but then she does not like the familiarity with which his model, CHIRI, treats him.

VIRGINIA finally obtains a position she likes. Shortly after she is charged by CUTTER's wife with trying to alienate his affections.

She appeals to him to explain, and demands an accounting of her investments. Then CUTTER confesses that he has not made a penny for her, but that he will give it to her if she will go away with him.

She denounces him and leaves his office. Her company offers to send her on a voyage as ship hostess. She goes to the studio to ask NIEL's advice, but the presence of CHIRI there spoils the evening.

The break between the lovers is further widened by NIEL's doubt of her after receiving a letter from DEAN setting forth the CUTTER charges and saying that VIRGINIA was merely dangling him on her line while she angles for money. She suffers in silence but a ray of hope comes from reading her father's diary.

NOW GO ON WITH THE STORY

CHAPTER XLII

Nathaniel maintained a strict silence in regard to Virginia's forthcoming voyage. He was convinced that she did not dread the separation. On the contrary he believed that she looked forward to the cruise as though it were a honeymoon trip—with a millionaire husband, he reflected bitterly. Virginia's own manner was partly responsible for his opinion. She was eager, breathlessly eager and whenever she spoke of it her eyes held a light that chilled Nathaniel with its clear, apparent anticipation.

"Guess you like the tropics," he said once and Virginia started at the acrimonious quality of his voice. She gave him a searching look in an effort to see if there was anything in his face to justify her in hoping that he opposed her sailing.

But the mask she had come to know and apprehend had settled over his features and she could gain no inkling of his true feelings from his expression.

She believed he was indifferent. They were hopelessly at cross currents with each other, misjudging, misunderstanding, both playing a part.

But they had on, each doing enough, showing enough affection, to avert a complete rupture. They dined together as formerly but parted soon afterward. There was no more discussion of money, of Oliver, of their own future.

The thought that Virginia's coming trip would be an answer to all those things was uppermost in the minds of both. There was no need to talk about the past.

Virginia knew that her fate would be definitely settled before her return as far as Frederick Dean was concerned in it and Nathaniel thought that it would afford Virginia an opportunity to break off with him without a fuss if that was what she wanted.

It was a turning point in their lives, they knew and they approached it with the white-lipped pain when there was no one to observe its effect.

The steel of pride kept a mock smile on their faces when they were together and neither guessed what the other was suffering.

Virginia's boat sailed at noon one bleak day in November and Nathaniel was not present to bid her farewell. He had purposely gone out of town to avoid this moment. To Virginia it was a gesture of callousness.

But that night, after she had done her best to be an ideal hostess, she admitted in a moaning whisper to her pillow that she couldn't have endured the parting if Niel had come to the boat.

She spent a sleepless night and appeared on deck the next morning looking pale and exhausted. There were few to comment upon her appearance, however, and those who did take notice accounted it a result of the gale they had run into.

Virginia received their chaffing good naturedly and permitted them to believe she had suffered from seasickness.

She was very busy that morning, conscientiously trying to be faithful to her duties. As so many of her "guests" were under the influence of mal de mer she devoted most of her time to visiting the restrooms and ordering chopped beef and crackers with ginger ale, or champagne for those who preferred it.

The deck steward came to her to organize a shuffleboard tournament, and the swimming pool attendants wanted ideas for the races they were scheduled to arrange.

A group of hardy husbands thought she ought to be around when the 10 o'clock bouillon was served on deck and the diningroom steward wanted her help with the flowers.

Every steward and stewardess of the ship turned to her for instructions whether or not it lay in her line of duty to advise and assist them.

They were all under orders and a promise of a bonus to make the cruise a memorable one and they knew Virginia Brewster's background and that she represented the standard of hospitality the Blue Capella wished to establish on the Agona.

There was little time for Virginia to think of her own troubles. For as she began to make acquaintances among the passengers she found that not a few of them expected to make her a repository for tales of woe that they considered very dreadful but which caused Virginia to smile.

Trouble with servants? Trouble with obesity? Trouble with the squariness of

supply and what vile stuff it was when you got it!

Virginia listened politely but always got away as soon as she could. She was grateful at these times for her many and varied duties that afforded her pretext for excusing herself.

By the time they reached Cuba and steamed into the historic harbor of Havana she had recovered from the first pain of Nathaniel's failure to bid her bon voyage. Her chief emotion now was one of agonized suspense. Would she find "Oddly" Leigh? And if she did would he help her?

It set her frantic when some of the passengers remarked that they wished the Agona would stay in the harbor a few days longer than the itinerary called for and spoke of asking the captain to make the change.

Hatti would be their next stop. Any unnecessary delay in getting there would be unbearable for Virginia. Her limit of endurance was already reached by the extra demands made upon her time and strength while they were in Havana.

On the last night in port there was a roof dinner given to the captain. The guest of honor showed a decided disposition to monopolize the attentions of the ship's hostess and so Virginia found herself compelled to dance with an old seagull whose steps might have been perfect on a heaving deck but impossible to follow on a dance floor.

She was sure it pleased certain of the wives to see her so disposed of and accordingly made no effort to induce him to choose another partner. It was his night and he knew it. But it filled her heart with sadness to be whirling around in his arms under the low-hung moon and brilliant stars of a land that was fashioned for romance.

If only she could close her eyes and imagine she was dancing with Neil! But when she tried it she promptly got her toes stepped on and the illusion, if it had existed, was instantly dispelled.

It was a very gay crowd, except for those who had walked too much in the tropical sun and drunk too much beer at the Tropical Gardens.

The roof was a garden of palms and flowers and the delicately-colored buildings of the city below stretched out to a moon-shimmering sea like a water color painting.

The beautiful evening dresses the women wore and the white dress suits the men had donned were in perfect harmony with the scene, but Virginia wished she could stand a moment at the parapet and be alone with the spirit of beauty that hovered over the city.

There was laughter; there were toasts, stories and music.

And far away, under a cold northern sky, a man tramped for miles and miles in a great city's midtown park and thought of a ship at sea with a girl whose heart was laid down in worship at the feet of Mammon.

And it was all so futile, he thought. For what could she buy to match the jewels of the sky? Gems were only to look at. Why did men lay down their lives to acquire precious stones when they had but to walk out into the night and look upward to see the greatest gem collection human eyes could behold?

And a daisy in a window box could mean more to a happy heart

than orchids or roses to misery. Nathaniel knew. He was unable to believe that a mortal could be so happy who loved material things more than his soul, and anyone who thought he could was due to make a sad discovery, he added in his mind.

"If I'd lost her because she loved someone else I could still respect her," he thought bitterly. It had cost him dearly to discover, as he believed he had, that Virginia looked upon him with the same light of truth and beauty to him, and inspiration and now she had turned his heart to a lump of mud.

His mural work was suffering. The face of his central figure was taking on a hard, wordy expression that Nathaniel knew would ruin him if he could not correct it. And he could not.

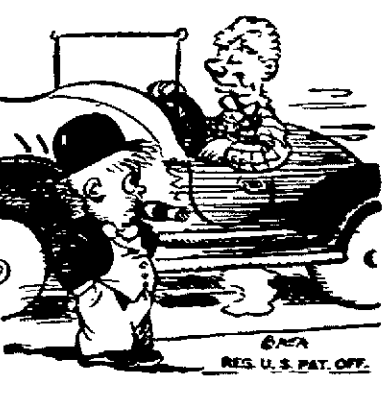

He was working now on a contract he had received as a result of his success with his first serious endeavor in art. It was a bad time for him to lose faith in mankind. . . . the one person he could have staked his life upon as being real was a fraud.

His bitterness was reflected in his far-off ship with poignant longing. It was driving him to distraction, for when he could not lose himself in his work he could not forget Virginia, even for a moment. Sleep had departed and he was haggard and disheveled. His only measure of solace was found in tramping through the streets from dusk to dawn, as he was doing now, finally returning to the studio to drop exhausted and fully clothed upon his bed.

Chiri assiduously thrust her sympathy upon him, persisting in spite of his rebuffs, until he paid no further attention to her.

While he tramped, and followed a

## Stomach Hurt?

Remove the cause of that pain  
before it runs into an operation

It's dangerous to neglect stomach pains; the cause of the distress so often leads to a dangerous operation. Prevention is the safest course. Overcome the trouble before it's too late.

ZINSEP has saved thousands of stomach sufferers from operations. Give it a chance to save you. It must benefit you. It's sold strictly upon that understanding. Your druggist will refund your money if it doesn't. Relieves indigestion, bloating, bad breath, sick headache, dizziness, nausea, vomiting, heartburn, sour stomach, gas in stomach and intestines, stimulating the stomach and bowels to normal activity.

ZINSEP Saved Him From  
An Operation

"For years I never permitted myself to eat pork, gravy, pastry, or, in fact, any rich foods, because they would fill me with gas and give me unbearable distress. Doctors told me I had ulcers of the

stomach and an operation was necessary. Since taking ZINSEP Compound I do not hesitate to eat anything that I care for, and no longer fear distress. ZINSEP is truly the wonder medicine of the age."—Mr. Vernon McPherson, Chapman, Neb.

## Wisconsin Michigan Power Company

6% Cumulative Preferred Shares

Issuance and sale of these securities approved by the Railroad Commission of Wisconsin and the Michigan Public Utilities Commission

\$104 a Share, Yielding 5.77 Per Cent

WISCONSIN MICHIGAN POWER COMPANY offers for conservative investment 10,000 shares of its 6 per cent cumulative preferred stock at \$104 a share. This affords the investor a yield of 5.77 per cent.

The entire proceeds from the sale of these shares will be employed in the improvement and expansion of the Company's varied public service facilities.

### An Essential Business

The Company operates in the important Fox River Valley industrial district of Wisconsin and in the extensive mining and manufacturing regions of the eastern part of the upper Michigan peninsula.

It supplies 110 communities with electric service, and provides gas and local transportation service in and connecting Appleton, Neenah and Menasha.

Its business is permanent, necessary and is growing steadily.

### Attractive Yield

These shares are preferred both as to dividends and distribution of assets.

The yield of 5.77 per cent commends them to the prudent investor. In this period of declining interest rates, a return of 5.77 per cent with the safety of these shares makes them an attractive investment.

Shares may be purchased for cash or monthly payments of \$10 a share. In either case, the money invested will begin to earn a return the day it enters the business.

The present issue is callable, at the option of the Company, upon 30 days' notice, at \$110 a share plus accrued dividends to date of call. Dividend checks are mailed four times a year, on March, June, September, and December 15.

### Sales Offices

These shares are on sale at Securities Department, Public Service Building, Milwaukee, and at the offices of Wisconsin Michigan Power Co., 112 East College Ave., Appleton, Wis., 126 East Wisconsin Ave., Neenah, Wis., and 217 East Ludington St., Iron Mountain, Mich.

Mail orders will be filled promptly by Registered Letter.

## NEW FASHIONS

## A PAGE OF INTEREST TO WOMEN

## BEAUTY HINTS

## As Usual, The Neckwear Problems End In A Tie

BY CURTIS WOOD

SOUTHAMPTON, L. I.—The natural beauty of this one of America's smartest summer watering places, seems to spur both men and women on to daring color combinations and brilliant hues in their attire.

Men who dress soberly for town step out in gala shades here where the white sands, gaudy umbrellas and luxurious flower gardens of homes form the perfect setting for stimulating clothes.

Fashions for men are born at such places as Southampton. You will see on the masses this winter or next spring that the exclusive man wears as an individual touch this summer.

Two trends are noticeable in new neckties here. There are distinctive checks and unusual stripes. Predominating are the new tweed checks, small, fine-patterned and quickly colored silks, with broken lines like the wool tweeds they copy. Grey is a fine color, with silver tones excellent for grey suits, light, or dark, and with blue suits. Blues in all kinds of shades seem to catch a silver tone too, that makes them the connecting link between a grey suit and a blue silk shirt. Reddish brown and yellow bottle green and white are seen too.

Second, there are new stripes in herringbone pattern, like the summer and fall suitings. These are apt to be gay, just as their striped pattern is more pronounced than the tweeds. A deep brown background with a fine herringbone stripe of tan is effective, two shades of blue and light and dark green are other combinations.

Volney Richter, one of Southampton's smartest dressed men, wore one of the tweed silk ties in two shades of medium blue with a one-button lightweight worsted blue suit of medium blue tone. Next day, I saw him in a tan suit with a striking dark brown and yellow tie.

Volney Richter wore a tweed-silk tie of shaded blues, with a blue suit. Lower left is the new herringbone stripe, usually in contrasting colors; right, one of the tweed weaves, which use conservative colors.

erette is bound to thrive! It's the old, old story of a real need so obvious that one can but wonder it was not developed before this!

## NICKELCERY IS ANSWER TO BIG NEED IN CITIES

BY ALLENE SUMNER

ALL the to-do about the nickelcery or the groceryette makes one wonder who so obvious a need of modern life was filled long ago.

For the last ten years, it seems, business women living alone in their little in-door living-room kitchen and bath apartments, have moaned about the high cost of cooking for one.

"A can of anything makes at least two and generally three meals," they will tell you, "and who wants the same thing each meal? A loaf of bread and a quarter pound of butter, tea and coffee, which are the smallest amounts one can buy, lose their goodness long before the one who lives alone can finish them. It may be funny to say that two can live as cheaply as one, but when you try cooking for one you almost believe it."

Real estate men often have explained that the very reason for the shortage of one-room apartments is their too-frequent change of tenants. And their theory of the reason goes like this—

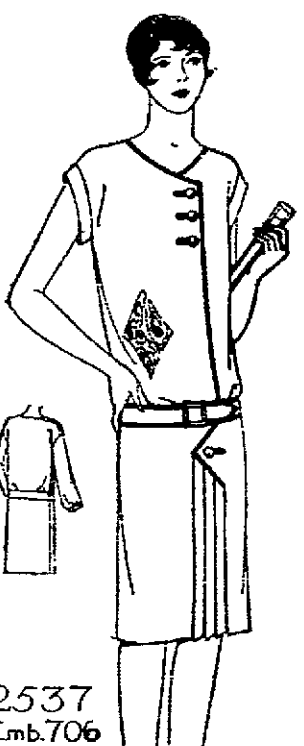

Lots of old maids and bachelors figure that even if apartment rent is higher than what they're paying for a room somewhere they'll make this up by saving on food and laundry, and shampooing and all the things they can do in an apartment, but can't do in a rooming or boarding house. But they soon learn that it doesn't work out that way.

In the first place, they get tired of cooking and housework when the novelty's worn off, and then they discover that it doesn't pay, anyway. Oh, if they got their dinners every night, it might! But they stock up on bread and butter and milk and fresh vegetables and fruits one night and by the next night the food's felt like cooking or they get an invitation to dinner, and by the time they're ready to cook their own dinner again, they must start marketing all over.

All of which seems to prove that the nickelcery or groceryette, with its five-and-ten-cent sizes of fruits and vegetables and fish and meats is a consummation devoutly to be wished. The nickelcery will sell the proper assortment of cans and dishes and thaws for a complete dinner for two for about 75 cents. Every dabbler consumed: no worry about what to do with the left-overs, and if one chooses to dine out the next night it can be done with a clear conscience and no sense of guilt at particularly good food languishing in the box.

## MONOGRAM MOTIF

Navy blue monogram motif and pumpkin add interesting contrast to a practical daytime frock of pale blue silk pique quite the smartest idea of the moment. The pattern arrangement at front makes it especially attractive for tennis or golf. Printed linen, silk broadcloth in horizontal stripes, dotted silk crepe, washable flat silk crepe in white or pastel shade, men's silk shirting fabric, plain linen, crepe satin and faïence silk crepe are also appropriate. Design No. 2537 can be had in sizes 16, 18 years, 20, 22, 24 and 42 inches bust. Pattern price 15 c's in stamps or coin (coin preferred). Emb. monogram motif No. 706, blue or yellow costs 15 cents extra. Our patterns are made by the leading Fashion Designers of New York City and are guaranteed to fit perfectly. In sending for the pattern, we suggest that you enclose 10 cents additional for a copy of our Summer Fashion Magazine containing 200 attractive styles and articles regarding correct selection of models to make the individual appear at her best.

## HEMSTITCHING FOR SUMMER FROCKS

Paris—(4)—Hemstitching has returned with a vengeance for the simple warm-weather frock. It is particularly favored for the sleeveless frock in crepe de chine, voile, linen, wool crepes and thin woolen fabrics. Turkish point which permits curved lines is a favorite variation of plain hemstitching. Many of these dresses are set on a plain round yoke, and this handwork is their only trimming.

## THE NEW Saint Sinner

The next morning Crystal Hathaway appeared in the dining room door, dressed in crisp green and white dimity and poised herself as if for a portrait to be painted. "Charming young guest greeting host and hostess." Her marcelled head tucked to one side, her hands posed upon her breast.

"Good morning, Faith! Good morning, Bob! What a charming domestic picture you two make. You almost tempt me to get married myself! Faith you have the most divinely spiritual look, like—like a priestess of the home! And isn't it fair at all for Bob to have curly chestnut hair. Aren't you sometimes sorry he looks such a heartbreaker, Faith?"

Faith, dark hair very smooth, brown, eyes very serene and friendly, gently kicked Bob under the table to make him stop his disgusted growling behind his morning newspaper she answered:

"Good morning, Crystal! You look so pretty yourself this morning that I'm sure you can't seriously envy Bob his curly hair, which he detests himself. Coffee with cream, honey? I'll ring for Beulah to bring in some fresh toast for you."

"Oh, please, no!" Crystal protested. "I'll never eat bread. Dieting, you know, to keep my boyish figure. Oh, heavenly! Honey-dew melon! Are these roses from your own yard, Faith? Gorgeous! May I pin one on my shoulder? This delicious pink with my green and white dress—"

"Of course!" Faith hastened. For Bob was growling again behind his paper. "Bob and I have been talking things over, Crystal, and we wonder if you'd like to try to find a position in Stanton and if you think you'd enjoy it, make your home with us for a while. Since you have no tie—"

"Oh, Faith," she gasped. Her arm went up to shield the naked emotion in her face, then she ran around the table and dropped to her knees beside Faith's chair, burying her face in Faith's lap. "I—oh, I don't know how to thank you! There's nothing I'd like better. I've been feeling so lost and unwanted and—everything!"

"Won't be hard to find a job," Bob said, clearing his throat, because it was unaccountably swollen with an emotion he had not believed this isle, artificial girl could arouse in him. "I'll give you letters to some business men I know. Mustn't expect too much money at first—"

"I'll be grateful for anything," Crystal insisted tremulously. "And I'll pay board of course. I promise I won't be a bit of trouble to you, Faith. I'm a good housekeeper, and I can cook, too. And I'll adore helping take care of Robin. Oh, I'm so happy!"

"Then I'm very glad," Faith said, lifting the girl up and kissing her. "Bob and I want you to feel as much at home here, as free and easy and—"

and natural with us as if you were in your very own home."

"Just don't practice vamping on me and we'll get along O. K.," Bob said, smiling, goaded by what seemed to him an urgent necessity. But the flood of embarrassed color in Crystal's face made him add hastily: "We are going to give you a chance to vamp to your heart's content tonight, though, young lady! A dinner-dance at the Marlboro Country club. Faith and I have just made members and—"

"Oh, I am sorry!" Crystal stammered, still fiery red. "My chum, Tony Tarver has made up a foursome—she and I, with Dick Talbot and Lon Edwards. It's known—"

"Nothing to get her up about," Bob assured her gruffly. "Faith and I will go anyway and see you kids there. But look out for that Dick Talbot. I hear he's the season's prize slick."

## SISTER MARY'S KITCHEN

BY SISTER MARY

BREAKFAST—Chilled cantaloupe, browned hash with tomato sauce, whole wheat muffins, honey, milk, coffee.

LUNCHEON—Open cream cheese sandwiches, jelly roll cake, egg lemonade.

DINNER—Fricassee of lamb, steamed rice, creamed carrots, jelly vegetable salad, peach bavarian cream, vanilla cookies, milk, coffee.

This is an excellent dinner to serve after an afternoon "out." The salad, and dessert must be prepared in the morning and chilled on ice for several hours and the carrots can be cooked and reheated in cream sauce when wanted. White fricassee is ideal for the fireless cooker or previous cooking and reheating when needed.

PEACH BAVARIAN CREAM—Six peaches, 1 tablespoon granulated gelatin, 2 tablespoons cold water, 1-2 cup boiling water, 2 cup sugar, whites 2 eggs, 1-2 cup whipping cream, 1-4 teaspoon almond extract, few grains salt.

Save 2 peaches to garnish mold. Peel fruit and rub through ricer. Add sugar and boiling water and heat to boiling point. Remove from fire and stir in gelatin softened in cold water for 5 minutes. Put bowl in pan of ice water and heat 2 minutes while mixture is hot. Let cool, beating occasionally. When jelly thickens, fold in whites of eggs beaten until stiff. Add cream whipped until firm, flavoring and salt and turn into a mold decorated with peaches. Let stand on ice to thoroughly chill and become firm. Serve with boiled custard made with yolks of eggs.

## THE TINYMITES

By Hal Cochran

READ THE STORY, THEN COLOR THE PICTURE

THE Tinymites clung to the rope tightly, yelled little Carpy Tinymite. And Clowzy said, "Oh, gee, I hope the tiger doesn't turn on us. We wouldn't have a show. His teeth look sharp as they can be. I hope he doesn't start for me." Then Scouty said, "Oh, he's all right. I guess I'll let him go."

The wooden man jumped to his feet. Said he, "Oh, please be more discreet. If you should turn that tiger loose he might do heaps of harm. They're nice and friendly, now and then, but he might chew on me again. Please hold him 'cause I do not want to lose a leg or arm."

The rope that held the tiger was wrapped 'round a monstrous tree because poor Scouty knew that they could not hang on to him alone. The tiger still had room to play, but kicked on being held that way. He sat down on his haunches and began to loudly groan.

## YOUR CHILDREN

by Olive Roberts Barton

"It seems that vegetables are the things to give your children to eat," said a certain mother recently, "and I, for one, agree. But I see people feeding children cold-slaw with strong dressing and cabbage boiled with ham or corned beef. Surely such things are too strong for a little child's stomach."

"They are, of course," replied the dietitian in a children's hospital. "You would think that people's common sense would tell them that."

"I wish they would start a cook-book for children," sighed the mother thoughtfully. "I think it is what we mothers need."

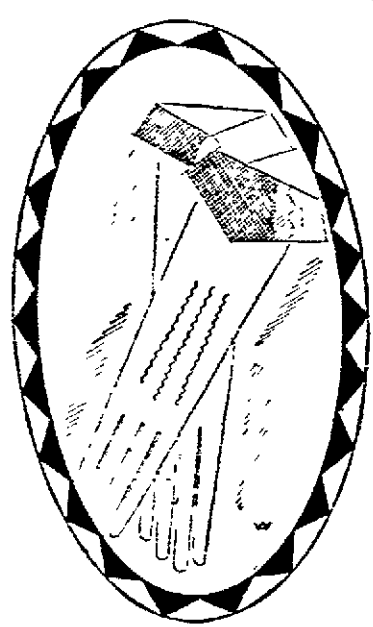

"And I say to that, amen. It may be of some help to mothers for me jot down a few recipes here for preparing vegetables for little children, or to go back still further, tell them what vegetables to use."

BOIL IN SOUP STOCK—Spinach, lettuce, beet-greens, carrots, chard, turnips, onions, string beans, celery, peas, and asparagus are good.

Wash these vegetables and trim them for making soup. Cut them into small pieces, then boil slowly until they are tender in a little soup stock (water in which beef or lamb has been boiled). They may also be boiled in plain water—as little water as possible.

For babies old enough to take vegetable soup in addition to their milk diet the vegetables may be strained and only the juice used. In straining, the vegetable may be gently squeezed with the back of a large spoon. This will make the soup cloudy but it is

## WOMEN SEEK WORLD-WIDE SEX EQUALITY

Women must learn to co-operate internationally to get real world-wide sex equality. In the opinion of Mrs. O. H. P. Belmont, leader of New York's established "499" and president of the National Woman's Party.

"With the functioning of the League of Nations and its International Labor Bureau establishing rules governing conditions under which women shall work, it is imperative that women represent themselves internationally and determine what action shall be taken regarding themselves."

"The need for international action in belief of equality for women grows more pressing every day. An intelligent Union of Women, from all countries, should have influence in preventing international bodies from establishing the same inequalities for women in international law which individual nations have made in the past."

"Such an International Commission of Women should receive the support of the feminists of all countries. It is to be hoped that the day is not distant when women will see the importance of such a step and will establish headquarters for the commission in every capital of every country in the world. In no other way save by solidarity can feminists get international equality."

## THEATRE TODAY FAILS TO HAVE CULTURE VALUE

Eva Le Gallienne

"Women as mothers and teachers hold in their hands the destiny of the next generation," said Eva Le Gallienne, founder, director and president of the Civic Repertory Theatre in New York City.

"The use to which our boys and girls put their leisure time depends chiefly on the advice and suggestions which the mother makes in the home and the teacher in the school."

"But the mother in the home and the teacher in the school are dependent on outside agencies for providing occupations for children's leisure time. They can only pick and choose among existing opportunities."

"The American theatre stands almost alone among the arts in its failure to provide a wealth of stimulating and interesting cultural opportunities. Our public libraries afford a vast range of choice in literature; our museums and galleries, in art; our concert halls and symphony societies, in music. And all within easy range of every pocketbook."

"The outstanding ambition of the Civic Repertory Theatre is the provision of entertaining and cultural opportunities in the realm of the theatre comparable to those already existing in the other arts, among which the American woman as mother and teacher can find suggestions for the pastime of the coming generation."

"I hope the success of the Civic Repertory Theatre through its first two seasons will stimulate other groups to provide like opportunities in every American community."

## FIND "FRIEND IN NEED"

Mother and Daughter Praise Vegetable Compound

Johnson City, N. Y.—My daughter was only 20 years old, but for two years she worked in misery. She was all run-down, nervous, had aches and pains and no appetite. I was taking Lydia E. Pinkham's Vegetable Compound with good results so she decided to try it. Before she had taken two bottles her appetite was better, she was more cheerful and was able to work. I cannot praise your medicine too highly. It is wonderful for mothers and for daughters. It's surely a friend in need.—Mrs. L. E. Hall, 223 Floral Avenue, Johnson City, N. Y.

Paris—(4)—Fifteen thousand French women married to foreigners want to get back the French citizenship lost when they married.

"Only fifteen thousand!" cry the French newspapers. And the thousands of others have only until August 10 to declare before a justice of the peace that they desire to become French again.

France wants these women. Depopulation and a low birth-rate make so many possible mothers so much wealth for the state. Last year a law was voted to make possible their reversion into French nationality. The law allowed them one year to make a declaration of their desires. This year is up August 10.

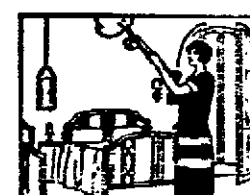

The chancery has received 15,000 such requests. The law reads that any Frenchwoman marrying a foreigner may declare her intention of retaining of French nationality. There is also a retroactive clause giving the option to all Frenchwomen married to foreigners since 1914 to make their declaration within one year.

Some of the complexity of the situation may be illustrated by a simple example. A Frenchwoman marrying an American previous to August 10, 1927, has lost her French citizenship without automatically acquiring American citizenship. She is in a kind of "no-man's land" of nationality unless she makes some move one way or the other.

Apartment are so scarce in the larger German cities that thousands of young married couples are forced to live for years in boarding houses or with their parents.

\$10,000 LESS IN CITY TREASURY AT END OF LAST MONTH

Kaukauna Still Has More Than \$60,000 Left to Run City Rest of Year

Kaukauna—The city treasury here was reduced \$10,000 by disbursements during the month of July, according to the monthly report of Joseph H. Dietzler, city treasurer. There was a balance of \$72,709.84 in the treasury at the beginning of the month, receipts totaled approximately \$51,000 while disbursements were \$61,379.66.

Two checks were received from the state for road aid, one for \$642.37 for south road maintenance and the other was for \$342.20 for north road maintenance. Paving money paid into the treasury totaled \$5,395.60. Three checks were received from Outagamie county for city's share of income tax collected from Kaukauna individuals \$3,538.00; city's share of corporation taxes collected here \$3,698.94; city's share of the state school aid, \$3,383.65.

The water works department paid \$4,236.89 into the treasury during the month while the electrical department netted the city \$31,575.89. Other receipts were for sale of various licenses, interest and other smaller miscellaneous matters.

The contingent fund was reduced slightly. At the beginning of the month it had a balance of \$12,782.56 and during the month there were receipts of \$7,365.81 and expenditures of \$8,897.75 leaving a balance of \$11,250.62.

The north road district fund is overdrawn \$5,765.60 and the south road district fund is overdrawn \$79,004.87 according to the district report.

There is a balance of \$3,507.59 in the north sewer district fund and a balance of \$5,010.72 in the south road district fund.

The electrical department fund had a balance of \$23,745.58 at the beginning of the month and receipts swelled the total to \$55,126.17. However disbursements totaled \$31,736.25 reduced the total to \$23,389.92.

The water works fund was slightly decreased as the result of expenditures slightly higher than the receipts for the month. The balance on July 1 was \$15,745.02 with receipts totaling \$4,236.47. Disbursements of \$4,698.29 leaves a balance of \$15,283.20.

Disbursements in the high school fund were less than the receipts and as a result that fund was increased from \$51,217.73 to \$52,453.74.

31 PRIZES OFFERED IN ANNUAL FLOWER SHOW

Kaukauna—Several more merchants have donated prizes for the flower show to be held at Fargo's Furniture store Thursday, making a total of 31 prizes. The prizes are arranged into thirteen divisions: Sweet peas, snapdragons, gladiolus, asters, phlox, house plants, dahlias, salpiglossis, old fashioned bouquets, straw flowers, best bouquet, zinnias and petunias. There will also be six extra prizes for the best bouquets not listed above.

This is the third annual flower show under the direction of B. W. Fargo who started the idea in Kaukauna. The flowers must be home grown to be eligible for prizes, and they may be entered Thursday morning.

BAG CO. OFFICIAL ORDERED TO HELP SET UP NEW PLANT

Officials of Kaukauna Mill Refuse to Discuss Rumors That Plant Will Be Moved

Kaukauna—With the announcement here Tuesday that G. S. Brenzel, 926 Roosevelt-st., chief clerk and cashier for the local branch of the Union Bag and Paper company, had been delegated to go to Orange, Texas, to assist in the organization of the company's new plant there, definite grounds were given to rumors that the local bag plant is to be closed down.

For several months there had been rumors throughout the city that the plant was to be closed down and most of the machinery and equipment was to be shipped to a new plant at Orange. Local officials of the company refused to discuss the move, however.

Mr. Brenzel and his family were to leave Wednesday for Orange and it was said that two other families, Mr. and Mrs. William Pahnke and Mr. and Mrs. Oswald Berndt were also to go to Orange. It was said several other employees had been asked to accompany the firm to Texas but they refused to do so.

After Mr. Brenzel completes his work at Orange he will go to Vancouver, Wash., where he will be the resident agent for the company's plant there. Mr. Brenzel sold his residence at 926 Roosevelt-st. to William Goese. Mr. Brenzel's departure from the city also will leave vacant the position of city scales of weights and measures, a position he held for some time.

TIMERS CHECK TWO BIRDS IN FIRST RACE

Kaukauna—Only first and second places will be timed in the first pigeon race Sunday from Wisconsin Rapids. It was decided at a meeting of the Kaukauna Pigeon club at the home of Albert Ludtke, 702 Wisconsin-ave., Tuesday evening. The reason is that the timers are made to only check two birds. The timers were checked at the meeting.

KAUKAUNA YOUNG MAN IN "TALKING MOVIES"

Kaukauna—William Beyer, son of Mr. and Mrs. Herman Beyer of this city, has been signed to a three year contract by Metro-Goldwyn-Mayer Motion Picture company and he will take parts in feature pictures in the new "talking movies." Mr. Beyer formerly lived in New York City where he took part in pageants and plays. He helped direct the Kaukauna Pageant here several years ago.

DEMOCRAT CAMPAIGN MANAGER BELIEVES IN 'PERSONAL COMFORT'

John J. Raskob Has Wonderful Mansion Close to City Where He Can Rest

Centerville, Md.—(AP)—When John J. Raskob turns to Maryland's eastern shore for weekend rests from his business and political duties, he comes to all the comfort that can result from careful expenditure of large sums of money in transforming the farm home of a pioneer family into a vast estate.

The Winton farm, home of the Earle family for more than two centuries, was Mrs. Raskob's selection for a summer home site. It was her interest that brought about its development into the remarkable estate now known as "Pioneer Point."

Within the last three years the greater part of this transformation has been accomplished, although there still remains much to be completed to carry out the plan to its full extent. It has required excavation of tons of earth, building of water plants and electric lines, terracing of long stretches of shore line and transplanting of carloads of boxwood and shade trees, as well as travelling of miles of roads and the construction of numerous buildings.

The focal point of the estate is "Mostly Hall," the house, so named because its spacious hall is its striking feature. From broad verandas the view takes in the junction of the picturesque Chesapeake and Chester rivers. The latter makes its way to Chesapeake bay. A short distance away is the pier, with a \$25,000 floating ball room anchored nearby, and in the shelter of a natural harbor lie a fleet of vessels including small sailing boats, sea sleds, racing shells, Marconi sailing sloops and oil-burners.

Nor have expenditures been alone on living quarters and the equipment for entertaining residents and guests. A half mile from Mostly Hall, near the entrance stands a cow barn, reputed to have cost a quarter of a million dollars, for Mr. Raskob's herd of prize Guernsey cattle, headed by Cherub's Signal of Shoreham, Aker's feature of the farm is a registered champion champion prize-winning steer born from 500 acres of land and nearby is a hog house for accommodation of the registered porkers that are included in the livestock. Not far away a stable, expected to cost another quarter of a million, is being constructed to shelter a string of blooded horses and provide a training course in the business itself.

Modern equipment and modern methods feature every phase of the farm development and the shrubbery, trees and hedges which have transformed far fields into places of beauty are all artificially watered by means of miles of pipe lines and held in place by scientifically placed wires and struts.

In addition to the home and the farm buildings there are about 30 houses on the estate, ranging from specially constructed bungalows to more pretentious residences for farm managers and superintendents and others of the Pioneer Staff.

In such a setting the democratic national chairman, who resigned as chairman of the board of the General Motors Corporation to manage the campaign can find relaxation with his sailing sloop, the "Toodes," called by the nickname of his eldest daughter, his dogs and prize livestock and the quiet peace that characterizes homes along the eastern shore of Chesapeake bay.

\$110,000 BUYS RUG AT LONDON AUCTION

London—(AP)—Abe "Emperor's Carpet" the most famous Persian rug in the world, has been sold here for \$110,000 to the International Art Gallery.

Measuring 25 feet by 10 feet, it was made in a factory of the Persia court some time during the 16th century. Tradition says that it was taken to Vienna in 1698 as a gift from Peter the Great to the Emperor of Russia.

It remained in possession of the Hapsburg family until the Austrian revolution in 1921.

Since then it has been in the state museum, Vienna, until sold to a private buyer.

# KU KLUX KLAN NAMES RELIGION AS ONE OF POLITICAL ISSUES

Others Are Prohibition, Corruption and Farm Relief

BY CLAUDE H. WOLFF

Indianapolis—Indiana, former hotbed of the Ku Klux Klan, will go through the political campaign with religion, prohibition, corruption and farm relief as the paramount issues.

Religion has entered the situation without the sponsorship and against the wishes of both republican and democratic leaders, but there can be no evading it in this state where the hooded order once boasted a membership of a half million.

Republican leaders have cast the prohibition issue before the voters. They see in it a powerful weapon to use in this exceedingly dry state against Gov. Alfred E. Smith, the democratic presidential candidate, while democratic leaders have hurled corruption charges at both the state and national administrations of the last few years.

The farm problem will be paraded by the farmers who, regardless of their political connections, find themselves pledged, nearly 100,000 strong, to vote for the presidential nominee who will assure them financial relief. These statements are summarized from conversations with farmers, politicians, members or former members of the Ku Klux Klan, the Indiana Anti-Saloon League, laborers, church workers, store keepers and others.

Normally Republican, there have

been so many cross-currents to date in Indiana that some politicians frankly confess themselves confused and hesitate at predicting the outcome. Men and women who have stayed away from the polls for years are expected to vote in November. Leaders on both sides are counting on the heaviest women's vote in history.

Eliza O. Rogers of Lebanon, republican state chairman, is authority for that statement that the wet and dry issue is the only one confronting Indiana. Herbert Hoover's known dryness, he insists, will enable him to carry Indiana. At the same time he believes Harry G. Leslie of West Lafayette will be elected Indiana's fourth consecutive republican governor and carry the remainder of the ticket with him.

Mr. Rogers does not discount the disturbing farm relief problem which the republican party must face, but he believes that by the time the voters are ready to go to the polls they will be satisfied by Mr. Hoover's plans for the future.

E. Earl Peters of Fort Wayne, democratic state chairman, can see no other issue than that pertaining to alleged corruption by republican office holders. He is joined in that belief by Frank C. Daily of Indianapolis, democratic candidate for governor, to whom leaders are looking for victory after 12 years of republican and administration. In his early speeches Mr. Peters has pointed to the oil scandals exposed in Washington and to the indictment of several Indiana republican leaders in the last two years.

The Indiana Anti-Saloon League will inject itself more heartily than ever before into the campaign. Terminating Governor Smith "a nullifying wet" and "a Tammanyite," Dr. E. S. Shumaker, superintendent, says 100,000 families in Indiana will be urged

through anti-saloon material not to vote for the New Yorker.

Both major political parties have big jobs ahead in Indiana. The democrats must mollify a dry electorate over the stand taken on prohibition by Governor Smith and National Chairman Haskob. The first step in that direction was taken recently when the state committee and party candidates went on record as standing for strict enforcement of the eighteenth amendment.

The republicans, meanwhile, find themselves confronted with the task of solidifying an organization which cracked rather widely in some places during the presidential battle in the Indiana primary and at Kansas City between Mr. Hoover and Sen. James E. Watson.

The wounds from these battles have healed on the surface, but there remains some doubt as to whether those who were for Hoover in the primary are entirely satisfied with the recognition or lack it—given a few weeks ago when the state committee organized for the fall campaign. It was noticeable that Watson men and women predominated.

One United States senator will be elected in Indiana this fall. Sen. Arthur R. Robinson of Indianapolis is the republican candidate seeking reelection. Albert Stump of Indianapolis is the democratic nominee. Robinson will have the support of the anti-

## STAGE And SCREEN

"FORGOTTEN FACES"

Amazing contrasts incorporated in a logical story that grips with outstanding performances by a great aggregation of players, makes Paramount's "Forgotten Faces" at Fischers Appleton Theatre today and tomorrow an exceptional motion picture.

The production is billed as an all-star special and it is. Clive Brook, Mary Brian, Baclanova, William Powell, Fred Kohler and Jack Lueden head the imposing list of talent in the cast. The story interest, unusual sets, vivid contrasts and dramatic value of the production entitle it to the rating of a special in the most complimentary sense of that term.

Imagine a picture that starts out

saloon league. Supported by that organization he handily won the republican nomination in the primary over two strong candidates. Stump is one of the drierest candidates on any ticket, but appears to have been unable to make any headway with the anti-saloon league for its support.

with a night hold-up of a fashionable gambling house perpetrated by two crooks in evening clothes, carries on to the grim interior of a penitentiary, shows an attempted prison break, gives intimate glimpses of social life in a home of wealth and culture and then depicts the terrified reactions of a woman being slowly driven mad by fear.

"STAND AND DELIVER" WINS

Appearing in one of the best roles he has portrayed in many months, Rod La Rocque was received with enthusiasm on the presentation of his latest DeMille studio production for Pathe, "Stand and Deliver," at the Elite Theatre Wednesday. This is a lively story of war and banditry in Greece and every scene has a thrill of its own. Mr. La Rocque was as usual highly artistic while Lupe Velez, a young Mexican actress of remarkable dramatic force and magnetic personality, shared honors with the star. Warner Oland, in the featured role of a bandit chief, proved himself one of the super-villains of the screen. "Stand and Deliver," which was admirably directed by Donald Crisp, a master craftsman, is emphatically a virile screen entertainment which no fan should miss.

## Crazy Post-War Art Losing Ground Steadily

Berlin —(AP)—There is a marked tendency to return to sanity in art, eight years. The term of office is in the opinion of Professor Max Liebermann, co-governor president of the Prussian Academy of Fine Arts, and the last of the great German impressionists.

"We are leaving the diseases of the period immediately following the world war behind us," he said to the associated Press correspondent. "There is a general return to rationality. I have just spent many hours looking over the work offered for the annual exhibition of the Academy and find that crazy notions are no longer preponderant. Art must adapt itself to and be an expression of the spirit of the times. It was inevitable that the general upheaval brought about by the war should also manifest itself in aberrations in art. But now that more stable conditions prevail we also find art becoming reasonable again."

Max Liebermann has been at the

## FINISH STEEL WORK ON LITTLE CHUTE BRIDGE

Steel work on the new bridge across the Fox river canal at Little Chute has been completed and it is expected the bridge will be opened for traffic within the next week or two as all that remains to be done is to complete the planing of the roadway of the bridge. Workmen this week are engaged in laying concrete for the walks at each end of the span.

## LAY AMIESITE PAVEMENT AT STREET RAIL CROSSING

The street department employees have been busy preparing for an amiesite pavement on N. Duane street where the thoroughfare intersects with the Chicago and Northwestern railway tracks. The paving was turned up recently while new tracks and crossovers were laid for the new freight depot.

# YANKEES, ATHLETICS LOSE IN AMERICAN LEAGUE CHASE

## Mackmen Miss Chance For Gain On Leaders By Loss To Battling Detroit Nine

White Sox Beat Hugginsmen When Intentional Pass Goes "Haywire"

The international pass may be good thing at times—but there are also times when it may prove a boomerang. Left-handed pitcher made that discovery Tuesday.

In the ninth, Bill Russell opened the inning for Chicago with a single and advanced to second on Berg's sacrifice. Adams made it two out with a fly. In this position the Yankees decided to pass Mostil and give George Redfern, rated one of the weak hitters of the league, a chance to make the third out. The supposed weak hitter, promptly confounded this strategy by leaping on the first ball pitched for a triple that sent Chad Mostil across the plate and put the game safely on ice. The final count was 5 to 2 in favor of the White Sox.

With a gaping hole left in the American League line by this defeat of the leaders, the Athletics allowed themselves to be thrown for no reason by a group of embittered Detroit Tigers led by Elmer Vangilder. The Detroit pitcher held the Philadelphiaans to the nine scattered hits and the Tigers won by a 4 to 1 score. Thus the Athletics failed to lessen the difference of 4½ games between them and the league leaders.

The Cardinals and the Giants in the National League reversed the Yankee-Athletics situation. Instead of losing, both won their games and St. Louis clung to its precarious 2½ game lead. "Old Red" Alexander gave the Braves only seven hits while the Cards batted out a 6 to 1 victory.

Meanwhile the Giants were battering the Chicago Cubs all over Wrigley field to win 10 to 2. Five Bruin pitchers tried to stem the tide of New York hits with little success. The Giants gathered a total of 15 hits off their assorted deliveries. Larry Benton did a neat job on the hill for New York.

The race for third place in the National League also remained unchanged. While the Cubs were losing to the Giants, their rivals for third place, the Cincinnati Reds, dropped a game to the lowly Phillies, 6 to 4. The two-run margin of victory game on a freak play when Southern tried to dodge a pitched ball and his bat connected for a single that drove in two runs.

The fast-moving Pirates registered a slight gain by handing the Robins a second straight defeat by a 4 to 2 score. The Pirate batters pounded McWeeny for nine hits and all four of their runs before he was taken out in the sixth.

### THIRD WARD JUNIORS WHIP SIXTH WARDERS

A five-run spurt in the fourth inning enabled the Third Ward Juniors to take a city junior championship tournament softball game from the Sixth Ward Juniors Tuesday evening. The final score was 6-3 for the Third Warders. Tommy Ryan and Pete King formed the winning battery and Johnson, Popp and Schade worked for the losers.

The Fifth Ward juniors forfeited a tournament game to the Sixth warders by a 2-0 score Monday. The game was carded for Roosevelt field.

## Grimes Favored As Most Valuable In National Loop

BY HENRY L. FARRELL  
There is no one name that suggests itself immediately when candidates are being considered for the National League's most valuable player prize. As is the case in the American League there are a number of prominent candidates, a number of factors to be considered and the contest is certain to be close.

Last year, in a neck and neck race, the prize was awarded to Paul Waner by the brilliant young outfielder of the champion Pittsburgh Pirates. His margin was only six points over the total of 65 that was polled for Frank Frisch, the dashing second baseman of the St. Louis Cardinals.

It isn't often that great ball players have two great seasons. But Waner's successor, but a strike with Waner and Frisch, who are prominent candidates again Frisch was the added luster of a major part in a spectacular pennant race, but Waner has been handicapped by a role with a disappointing and rather ascribed team.

Both the Cardinals and the Pirates, however, have more spectacular candidates in the contest. The Cardinals have Jim Bottomley and Jimmy Wilson, and the Pirates present Burleigh Grimes, the greatest pitcher of the year.

The field in the running for the prize football will be reduced to Bottomley, Wilson, Grimes, Fred Lindstrom and Larry Benton and of these five our favorite is Grimes.

There is no question that Freddy Lindstrom has been one of the outstanding players of the season. He is a great young ball player and he has had a great part in keeping the Giants in the race for the pennant. But the twenty or twenty-five games that Benton may turn in for McGraw's team also will be a major contribution. And how can it be determined which of these two stars could have been spared last?

The same factors have to be considered in the cases of Jim Bottomley and Jimmy Wilson. Bottomley has been a most valuable player in St. Louis for a number of years. He has

### VALLEY DOPE

League scoring records went by the board at Kaukauna when Les Smith and his swatsmiths chased the Nee-Menasha club home on the short end of a 25 to 0 score. The Pails imported battery got lost by the wayside somewhere and Manager Larsen had to let Becker face the music all the way.

The Green Sox set a league record when they pulled off a triple killing on the Cards. Fondy had first and second occupied when a ball was hit to Rachals. He whipped the pill to Clark, who relayed it to Lamoyne at first. The Bay first sacker then snapped it to second and it was all over.

Boots Lamers retained his leadership in the Valley batting race by poling three hits in six trips to the plate in the Appleton game. Rachals who is camping on the heels of the Papermaking outfielder, got two out of four against Fondy. Only a dozen points separates the two swatsmiths.

Some of the veterans never grow old. Fondy went to Waupun for a game with the prison nine. Sanders was short of hurriers and he decided to try his luck in the box. Everybody was expecting Sandv's stay on the mound to be of short duration but he fooled 'em and won the ball game.

Kirkoff, the Green Bay centerfielder, is making a great bid for the all-league selection. Rufus is hitting over the .370 mark and he covers an acre of territory when roaming the garden. There is no doubt that Les Smith, B. Lamers, Farns and Kirk off are the cream of the Valley outfielders.

The 'curtain' banquet of the Valley league moguls is to be held at the Beaumont hotel in Green Bay on Sunday, Sept. 30. This is the day that the Packers meet the Chicago Bears and the leaguers are planning to mix their baseball and gridironing at the same time. John Coppes will be present.

In Wolfstath and Powalski, Nee-Menasha has picked up a pair of first-class infielders. Both boys are youngsters and have the best days of their baseball career ahead of them. The recruits handle ground balls nicely and each of them take a mean cut at the ball when standing up at the rubber.

President Baetz has made two additions to his staff of umpires and the new arbiters are working well. Mertz, a former Fondy hurler is being used on the bases, while Block, a brother of the Appleton umpire, turns in a first-class job running a ball game from behind the rubber.

Three good games are scheduled on Sunday. Green Bay will journey to Kaukauna to stage a battle for second place. Fondy has been billed for appearance in Kim-Little Chute while the tail end clubs, Appleton and Nee-Menasha will stage a free-for-all in the College City ball park.

### FIFTH WARD GIRLS WIN FROM FOURTH WARDERS

In a junior girls' softball tournament game the Baby Giants of the Fifth ward whipped the Comets of the Fourth ward, 16-10, Monday afternoon. Batteries for the winners were Lucille Mathes and Germaine Rammer, pitchers, and Helen Nabbeffeldt, catcher for the losers. Marcella Lau and Rose Stang pitched and Lucille Hedger caught.

Los Angeles—Bushy Graham, New York, defeated Charley Pinto of Buffalo (19).

### DISTANCE MARK

A new world's record for dawn to dusk golf playing is believed to have been broken recently in Fort Worth, Texas, when Clarence "Skeets" Funcher, municipal golf pro, played 127 holes in a single day. The highest score on 18 holes was an 84 and his lowest scores was a 75. His last drive of the day was a 260-yard smash. Record or not, that's plenty golf for onlie day.

### PLAN DISTRICT SYSTEM FOR VALLEY BALL MEET

More plans for the 1928 Fox River Valley softball championship tournament for teams from Green Bay, Kaukauna, Kimberly, Appleton, Nee-menasha, Oshkosh and Fond du Lac were completed this week and a plan proposed by A. C. Denny, Appleton playground director, seems the most feasible to the promoters. By Mr. Denny's method the meet could be run off in a week or two by a single game elimination system.

The idea is to divide the Valley into two districts, north and south. The north district would consist of Green Bay, Kaukauna, Kimberly and Appleton and the south of the other four cities. Green Bay would meet Kaukauna in one game in the north district and Kimberly would play Appleton. On the same day Nee-menasha would clash and Oshkosh and Fond du Lac. In the next series winner of the Bay-Kaukauna game would meet the winner of the Kimberly-Appleton game for the north district title and the same would occur between winners of the Nee-menasha and Oshkosh-Fondy games for the south district title. Then the district champs would meet in a three-game series on a neutral diamond for the Valley title. The district system saves time, expense and traveling distance with Green Bay and Fond du Lac terminal cities, as distant teams do not have to meet.

Appleton's champion will be decided in the next few weeks in a series between the Cardinals. Interplayground league champs, American Legion, National loop titleholders, and Chicago, Northwestern Railroads, American circuit pennant winners.

### SIXTH WARD GIRLS WIN JUNIOR SOFTBALL GAME

The Sixth ward junior girls took a junior girls championship tournament softball game from the First ward girls Tuesday afternoon at First ward field by a score of 20-3. The Sixth ward lineup was Leona Brandt, c; Arline Peterson, c; Louise Hecker, lb; Dorothy Ehke, 2b; Ione Berg, 3b; Elizabeth Long, rrf; Betty Meyer, ss; Leona Berg, rf; Ruth Harris, lf; Margaret Mauthe, cf. For the losers, Evelyn Ingenthron, c; Beatrice Lutz p; Mame Cnall, lb; Veronica Robbeau, 2b; Eunice Luck, 3b; Edith Lenz, lf.

### LITTLE CHUTE NINE CINCHES PENNANT

Batter Four Combined Locks Hurlers to Win Final Game by 21-1 Count

Four Combined Locks hurlers failed to halt the pennant rush of the Little Chute team of the Intercounty Baseball League Sunday and the Chuteurs closed their 1928 season in great style, winning easily 21-1. The victory clinched the league championship for the second straight year for the Chute nine. The winners combined the four oval hurlers for 20 hits and 5 men walked, 4 were hit by pitcher and there were 5 sacrifices.

E. Eggett, Chute hurler, allowed only four hits and four walks while fanning 12. The four Locks hurlers fanned five Chuteurs. Combined Locks got its only score in the ninth on a walk, stolen base and an error.

With the exception of Evers, every man in the Chute lineup gained at least two hits. Evers went hitless in six bats but was hit by pitcher three times. He stole five sacks and scored three of the teams 21 runs. Shultz, Eggett, R. Versteegen and Haase led the Chute offense with three hits apiece. Haase's hit over the center-fielder was good for three sacks and was the longest hit of the day.

Jansen led the Locksmen with two hits and a walk in four times at bat. None of the Locks hits were good for extra bases.

No game is scheduled for next Sunday but the Sunday after the Chuteurs meet Murphy's Corners at Freedom.

### HUNTER DECLINES TO PLAY WITHOUT TILDEN

New York—(AP)—Francis T. Hunter of New Rochelle, N. Y., second ranking American tennis player, has joined r's doubles partner, "Big Bill" Tilden in the battle of the United States Lawn Tennis Association. Unless Tilden receives an invitation to play in the annual east-west matches at Forest Hills Friday and Saturday, Hunter will not take part in them, he announced Tuesday.

New York—Jack Britton, former welterweight champion, outpointed Tony Vaccarella, New York (10).

Chicago—Eddie Shea, Chicago, defeated Benny Kid Carter, Los Angeles (10).

Newark, N. J.—Vince Dundee, Baltimore, defeated Irish Fagan, Newark (10).

### CONQUERS GULF

Pretiv Athenais Eichling, of Memphis, Tenn., was the winner of the annual 14-mile Bloxi-Isle of Caprice marathon swim on the Gulf of Mexico. She outclassed 23 entries to lead the field and it took her only six hours and seventeen minutes under a blazing sun to do it. She's one of the reasons why those towns along the Gulf coasts are popular resorts.

### BREWS WIN EIGHTH STRAIGHT BATTLE

Trounce Columbus, 8-3, to Pull Up to 1½ Games from Millers

Chicago—(AP)—If the Milwaukee Brewers have anything to say about it, Indianapolis may have to contend with them for first place honors in the American Association pennant race.

Tuesday the Brewers ran their string of consecutive victories to eight by trouncing Columbus, cellar champs, 8 to 3, while Milwaukee's hold on second place was weakened by a 5 to 4 defeat at the hands of the Louisville Colonels.

The Indians, however, bested St. Paul by a 6 to 0. Although the Sam's threatened several times, Redie Schupp was effective in the punches. Kansas City's Blue recently nudged into fourth place by the Brewers won from Toledo 4 to 3, in their efforts to overtake Milwaukee's hard hitting name.

### SAMMY MANDELL WINS JAMESVILLE MITT BOUT

Jamesville—(AP)—Sammy Mandell, Rockford, Ill., lightweight champion of the world, scored a technical knockout over Johnny O'Donnell of St. Paul when the referee stopped the bout at the end of the eighth round of a ten round bout before 4,500 fans Tuesday night.

His left eye closed and he was hopeless, outclassed, O'Donnell after first taking a terrific beating for seven rounds, was knocked to the floor for a count of two as the eighth round closed. He was saved by the bell as he got to his feet.

Going to his corner, he was examined by Referee Walter Houlihan, who then ended the fight.

### Who Will Beat Jones?

With the date for the national amateur golf tournament fast approaching, experts are asking this question—Who can beat Bobby Jones to win the title? Jones, as usual, is the favorite to win.

### "BIG BILL" TILDEN BOOTED BY MOGULS

America's Great Tennis Star for Several Years Off Match List

New York—(AP)—The list of players in the annual east-west tennis matches has been posted for the world to see and lo, "Big Bill" Tilden's name does not head the list. As a matter of fact it doesn't appear at all and thereby hangs another tennis mystery.

"Big Bill," now awaiting trial on charges of violating the amateur rule of the United States Lawn Tennis Association, has been a familiar figure in east-west matches for years. Many was the duel he fought with "Little Bill" Johnston in this annual series. Now both apparently are out of the picture. "Little Bill's" absence is voluntary. He announced his retirement some months ago. But "Big Bill" evidently is off the squad by official decision.

The eastern squad for the matches which will be played this Friday and Saturday at Forest Hills will consist of Richard N. Williams, Philadelphia, captain; Francis T. Hunter of New Rochelle, N. Y., Dr. George King, Watson Washburn and Texo Tobia, all of New York; John Van Ryn of Princeton; Gregory Mangin of Newark, and Fritz Mercier of Harrisburg, Pa.

The west's cause in the intersection conflict this week will be upheld by George Lott, of Chicago, and John Hennessey of Indianapolis, Davis cup stars, John Doeg of Santa Monica, Cal.; and Alar Herrington, Neil Brown and Robert Sellers, all of San Francisco.

### FIFTH WARD MIDGETS WIN 15-INNING GAME

An overthrow in the fifteenth inning enabled the Fifth ward midget boys softball team to take a midget softball championship tournament game from the Fourth ward midgets by a score of 6-5. The Fourth warders led most of the regular game but a Fifth ward rally knotted the count at 5-5 in the seventh and last frame. After that neither team counted for the next seven frames.

### BROOKLYN FANS OUT TO GET UNCLE ROBBY

Bucs Protest When Dodgers Fall from Pennant Fight to Sixth Place

New York—(AP)—Over Brooklyn way, they're gunning for Wilbert Robinson, portly manager of the Brooklyn Robins for the last 14 years.

A well-developed move to oust Robinson from the pilot-seat at the end of the 1929 season when his contract expires, is under way and behind the move, according to reliable authority, is Stephen W. McKeever, vice president and treasurer of the club. McKeever says his effort to remove Robinson is being made as a result of a deluge of letters from Brooklyn fans protesting against Uncle Wilbert's handling of the Robins this year. After starting out the season in winning fashion, the Robins began dropping down the ladder until they now stand sixth in the National League standing and with little hope of ending the campaign in any higher position.

Special dispatches from Pittsburgh to New York newspapers Tuesday quoted Robinson as saying he had no intention of resigning under fire. Generally speaking, neutral observers felt that "Robbie" had done very well to keep his makeshift in the running as long as he did.

## Two Wisconsin Girls Still In Running In Golf Meet

Indian Hill, Chicago (P)— Golfers by swamping Virginia Ingram of Chicago, 5 and 3.  
Chicago's four were Virginia Van Wile, Mrs. Lee M. Virginia Wilson and Dorothy Klotz Farus, all of whom are veterans in tournament match play. Miss Van Wile, Chicago champion, is ranked as the greatest threat to Mrs. Pressler's throne. Her opponent Wednesday was Gertrude Boothby of St. Paul.  
Wisconsin had two great prospects in Dorothy Page of Madison, and Bernice Wall of Oshkosh. They came through easily in the first round, Miss Page defeating Jean Cannon, of Milwaukee, Wisconsin state champion, 4 and 3, and Miss Wall eliminating Mrs. L. E. Rein, Chicago, 3 and 1.  
Miss Page's opponent Wednesday was Mrs. Curtis Schell, of Columbus, Ohio, one of the best golfers in the midwest. Miss Wall was opposed by Mrs. Lee Mida of Chicago.

## RISKO, ROBERTI CLASH IN HEAVY TOURNEY BOUT

New York (P)—The great man hunt for the man who is to fill Gene Tunney's shoes as heavy weight champion of the world is on its way. Wednesday night, in the first of the elimination bouts that are expected to produce a new champion, Roberto Roberti of Italy meets Johnny Risko of Cleveland in the first round of the tournament.

Although Tex Rickard is supposed to stage the exhibition series for the title, his New York rival, Hammer, J. Fugate, is expected to make the master of Madison Square Garden by taking the fight title away from him. Risko, the heavy ex-banker who came to the ring in the last elimination bout after Tom Heeney, had been chosen to oppose Tunney in his last fight, apparently has every year.

advantage over Roberti except in size. He has shown himself to be among the best of the present crop of heavyweights, though perhaps not the best, and has a vastly greater amount of experience.

## How to Polish

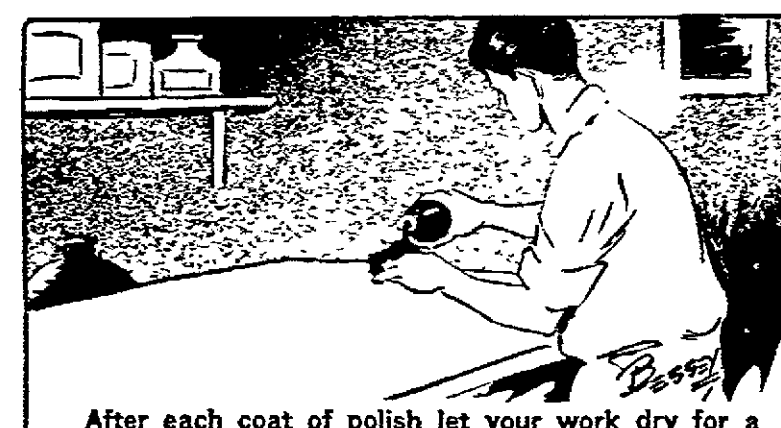

Polishing requires more skill and time than varnish but gives a smoother and glossier surface. It is important that the pores of the wood be thoroughly filled so the polish cannot sink in and lose its luster. A number of applications of polish, with long intervals for drying, will accomplish this. Soft white linen is the best rag for polishing.

Place cotton batting in your rag and moisten it with polish. The picture shows how it may be grasped by the hand when applying.

This shows another method of holding the cloth. To cover a surface quickly, move in large circles as the picture indicates.

After each coat of polish let your work dry for a day. In sinking in and hardening, polish loses some of its gloss. Fresh applications will renew the luster. This is what is called "bodying in." A little wood alcohol will remove smears caused by the rubber in bodying in and also take up any oil which would give the surface a dull, greasy appearance. (Next: Lacquer)

LUNCHEON CLUBS INTERESTED IN SWIMMING POOL

Lions and Rotarians Discuss City Project When Speaker Disappoints Them

Special to Post-Crescent  
New London—Lions and Rotarians gathered in the club room of the Elwood hotel on Tuesday to hear Chief Oshkosh, of the Menominee tribe talk on conservation of Wisconsin scenic beauties were disappointed because the speaker did not appear. No explanation has been received as to the reason for his nonappearance. Leonard Chene, president of the local Lions, presided at the joint luncheon. Leon Giles Putnam led community singing with E. Louis Reuter at the piano. Following a suggestion from Mr. Putnam that New London municipal bathing beach should receive attention, an informal discussion of the project followed.

Mr. Putnam stated that during recent visits to various cities he had particularly noted the manner in which water sports and swimming were encouraged, and with a view of bettering local conditions, spoke in favor of a concrete swimming pool. He spoke especially of the new resort opened in Des Moines and of an excellent one in use in Waukegan, stating that he believed one might be constructed here at small cost to the city, with the active aid of both service clubs.

Mayor Wendlandt, asked for an opinion, stated that he believed the matter needed attention but that he had not time to construct such a pool as had been suggested. New London's municipal water power would prove inadequate for the purpose. He stated a belief that not enough water could be pumped by the present system and that unless water from one of the rivers could be diverted, which would be otherwise treated the plan would not be feasible at the present time.

Dr. F. J. Pfeiffer head of the local board of health, said that water constantly flowing, as is the Embarras river, is not pure enough to be used for drinking. He said, in the course of two or three miles, to offset the enormous amount of money which he believed would be necessary to erect a pool large enough for the uses of a city of New London's size, he suggested that the beach be cleared of crabs, dredged and divided so that small children not able to swim can be kept within bounds. He believed that the bath houses should receive attention, enlarged and improved with hot and cold shower baths. Thus, bathers could enjoy the pleasure of natural water, children would still be at play under supervision and the facilities at the bath houses would ensure healthful conditions.

EVERY FLOWER HAS CHANCE TO WIN PRIZE AT SHOW

Special to Post-Crescent  
New London—Even a single specimen of your favorite flower may bring you a reward at the amateur flower show to be held under the auspices of the New London Civic Improvement league, at the city hall on August 24-25. Exhibitors are asked to make their entries as soon as possible with Mrs. J. W. Monsted, chairman of exhibits.

Seven classes will receive consideration and first prize in each, one dollar each will be paid. No charge will be made for entries, though a small fee may be asked of visitors. The first show in charge of the home economics committee will be an opportunity for the cooks of the community. Gardeners and housewives from all outlying towns are asked to take part.

SUGGEST REROUTING HIGHWAY AT WAUPACA TO ELIMINATE CURVES

Would Build Route 10 Across Mill Pond in Village Limits

Special to Post-Crescent  
Waupaca—The Waupaca County Highway commission has received word that the highway commission of Wisconsin Rapids sent a report to Madison recommending that Federal Highway 10 be built straight across the mill pond from the Tom Evans property on Churchill to the south side of the Wooten Mills, which now houses the Fuller Manufacturing company.

This route will necessitate the purchase by Waupaca county of the Evans property with the exception of a lot to the east where the residence will be moved, and the construction of a new bridge across the pond, but will eliminate two dangerous curves on the old route, one just east of the Evans property and one south of the Wooten Mills.

CELEBRATE PIONEER DAY IN WAUPACA-CO

Little Red School House and Old Settlers Club Hold Annual Picnic

Special to Post-Crescent  
Royalton—Thursday, Aug. 16, will be Pioneer Memorial day in Waupaca when the Little Red School House and Old Settlers association hold their annual picnic.

The picnic takes place at Kestings Grove, Royalton.

A picnic dinner, much of which will be Waupaca product, will mark the occasion, to be followed by a program of musical and vocal music, with addresses by prominent old settlers.

To the younger generation, Pioneer day is a new and deeper significance.

Pioneer day is proud of the fact that Waupaca holds such a festival in agriculture, dairyming, and other industries.

Every county must have its traditions and its pioneer days with only struggles before these things are attained.

Waupaca was originally covered with a dense forest. The first white man to explore it was Alpheus Hicks in 1818. A few settlers came between 1820 and 1850 when the Indians made their last abandonment of the land and government surveys were started.

From that time on Waupaca has been making history the half of which has never been recorded, although J. W. Kakebald wrote and published in 1891 a remarkable book on the history of Waupaca.

The material hand is composed of Joseph Grider, Royalton, George Stevens, Weyauwega, Alvin Halseit and George Lindsay Marawa. E. E. Russell is secretary of the association.

School picnic Thursday. The picnic will be in Oscar Nelson's grove.

Frank Sampson left for Sheboygan Saturday where he will be employed. A town board of the town of Neenah met at the clerk's home Aug. 13.

Mr. and Mrs. Albert Larson and children were visitors at the William Abren home Sunday.
